On May 25, 2025, seven years will have passed since the application of Regulation (EU) 2016/679 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (GDPR), across all member states of the European Union. This European Regulation established uniform rules for the effective protection of the right to personal data protection throughout the community space.
