****Sanction for Violation of GDPR****

The National Authority for the Supervision of Personal Data Processing completed, in December 2024, an investigation into the operator Omniasig Vienna Insurance Group S.A. and found a violation of the provisions of Article 32 paragraph (4) in conjunction with Article 32 paragraph (1) and paragraph (2) of Regulation (EU) 2016/679.

For the committed act, the operator was sanctioned with a fine amounting to 14,931 lei, equivalent to the sum of 3,000 euros.

The investigation was initiated following the notification by the operator Omniasig Vienna Insurance Group S.A. of a personal data security breach, according to the provisions of Article 33 of Regulation (EU) 2016/679.

Thus, the operator notified that an employee of an authorized person (legal entity) with whom it collaborated had collected undue amounts by completing compensation requests for non-existent events, using the identities of clients, insured natural persons.

During the investigation, it was found that the employee of the authorized person, who had access to the operator's claims files, accessed personal data without authorization, such as: name, surname, home address, image of the person, personal identification number, identity card number and series, medical data, financial data of the data subjects.

In this context, the security breach occurred as a result of unauthorized access for a determined period of time to personal data belonging to a significant number of data subjects.

Thus, it was found that the operator had not implemented appropriate technical and organizational measures to ensure a level of security corresponding to the risk of processing, including the ability to ensure integrity, to guarantee the security of processing, and did not take adequate measures to ensure that any natural person acting under the authority of the operator or the person authorized by the operator and having access to personal data processes it only at the request of the operator.

At the same time, a corrective measure was imposed on the operator to establish an inspection/audit plan at the level of the person authorized by the operator, in order to avoid similar security incidents.

The operator has paid the established contravention fine.
