Sanction for Violation of GDPR

The National Authority for the Supervision of Personal Data Processing completed, in April 2025, an investigation into the operator BITDEFENDER SRL and found a violation of Article 32 paragraph (1) letters b) and d), paragraph (2) of Regulation (EU) 2016/679.

As such, the operator was fined in the amount of 49,772 lei (equivalent to 10,000 euros).

The investigation was initiated following the notification by BITDEFENDER SRL of a personal data security breach, in accordance with the provisions of Article 33 of Regulation (EU) 2016/679.

During the investigation, it was found that, due to a programming or implementation error in the operation of updating the email security analysis service, a significant number of personal data of customers were disclosed to third parties.

As such, it was determined that the operator did not implement appropriate technical and organizational measures and did not carry out periodic testing, evaluation, and assessment of the effectiveness of the technical and organizational measures to ensure the security of data processing, including the ability to ensure the confidentiality, integrity, availability, and resilience of processing systems and services.

In this context, we specify that this situation led to unauthorized disclosure or unauthorized access to the personal data of a significant number of data subjects, at least, names, surnames, and email addresses.
