RESOLUTION OF SANCTIONING PROCEDURE

From the procedure instructed by the Spanish Agency for Data Protection and based on the following

BACKGROUND

FIRST: A.A.A. (hereinafter, the complainant) filed a complaint with the Spanish Agency for Data Protection on 12/10/2022. The complaint is directed against B.B.B. with NIF ***NIF.1 (hereinafter, the respondent), for the installation of a video surveillance system located at ***ADDRESS.1, with indications of a possible violation of the provisions of Article 5.1.c) of the GDPR.

The reasons supporting the complaint are as follows:

The complainant states that he is a neighbor of the respondent and that the latter has installed a video surveillance camera in his residence aimed at the public road that runs alongside his residence and that of the complainant, without having authorization for this.

He provides images of the location of the camera.

The documents submitted are:

- Photographic report

SECOND: In accordance with Article 65.4 of Organic Law 3/2018, of December 5, on Personal Data Protection and Guarantee of Digital Rights (hereinafter LOPDGDD), the complaint was forwarded to the respondent for analysis and to inform this Agency within one month of the actions taken to comply with the requirements set forth in data protection regulations.

The forwarding, which was carried out in accordance with the rules established in Law 39/2015, of October 1, on the Common Administrative Procedure of Public Administrations (hereinafter, LPACAP), was recorded on 03/11/2022 as noted in the acknowledgment of receipt in the file.

No response has been received to this forwarding letter.

THIRD: On January 12, 2023, in accordance with Article 65 of the LOPDGDD, the complaint filed by the complainant was admitted for processing.

FOURTH: On April 18, 2023, the Director of the Spanish Agency for Data Protection decided to initiate sanctioning proceedings against the respondent for the alleged infringement of Article 5.1.c) of the GDPR, classified under Article 83.5 of the GDPR.

FIFTH: The aforementioned initiation agreement was notified in accordance with the rules established in Law 39/2015, of October 1, on the Common Administrative Procedure of Public Administrations (hereinafter, LPACAP) on 19/04/2023, and after the period granted for the submission of allegations had elapsed, it was confirmed that no allegations had been received from the respondent.

Article 64.2.f) of the LPACAP - a provision of which the respondent was informed in the initiation agreement - establishes that if no allegations are made within the stipulated period regarding the content of the initiation agreement, when it contains a precise statement regarding the responsibility attributed, it may be considered a proposal for resolution. In this case, the initiation agreement of the sanctioning procedure determined the facts underlying the accusation, the infringement of the GDPR attributed to the respondent, and the sanction that could be imposed. Therefore, considering that the respondent has not made any allegations against the initiation agreement of the file and in accordance with the provisions of Article 64.2.f) of the LPACAP, the aforementioned initiation agreement is considered in this case a proposal for resolution.

In view of all the actions taken by the Spanish Agency for Data Protection in this procedure, the following facts are considered proven,

PROVEN FACTS

FIRST AND ONLY: It is recorded, according to the documentation in the file, that the respondent has installed a video surveillance camera that, due to its orientation, would be capturing images of the public road and of the complainant's residence.

LEGAL GROUNDS

I

In accordance with the powers granted by Article 58.2 of Regulation (EU) 2016/679 (General Data Protection Regulation, hereinafter GDPR), to each supervisory authority and as established in Articles 47, 48.1, 64.2, and 68.1 of Organic Law 3/2018, of December 5, on Personal Data Protection and Guarantee of Digital Rights (hereinafter, LOPDGDD), the Director of the Spanish Agency for Data Protection is competent to initiate and resolve this procedure.

Furthermore, Article 63.2 of the LOPDGDD states: "The procedures processed by the Spanish Agency for Data Protection shall be governed by the provisions of Regulation (EU) 2016/679, this organic law, the regulatory provisions issued for its development, and, as long as they do not contradict them, subsidiarily by the general rules on administrative procedures."

II

The physical image of a person, according to Article 4.1 of the GDPR, is a personal data and its protection, therefore, is subject to this Regulation. Article 4.2 of the GDPR defines the concept of "processing" of personal data.

“‘treatment’: any operation or set of operations performed on personal data or sets of personal data, whether by automated means or not, such as collection, recording, organization, structuring, storage, adaptation or modification, extraction, consultation, use, communication by transmission, dissemination or any other form of enabling access, comparison or interconnection, restriction, erasure or destruction;”

The images generated by a system of cameras or video cameras are personal data, and therefore their processing is subject to data protection regulations.

It is, therefore, pertinent to analyze whether the processing of personal data (images of individuals) carried out through the reported video surveillance system complies with the provisions of the GDPR.

III

Article 5.1(c) of the GDPR states the following: Personal data shall be:

“adequate, relevant and limited to what is necessary in relation to the purposes for which they are processed (‘data minimization’).”

Regarding processing for video surveillance purposes, Article 22 of the LOPDGDD establishes that natural or legal persons, public or private, may carry out the processing of images through camera or video camera systems for the purpose of preserving the safety of individuals and property, as well as their facilities.

The processing of personal data is subject to the other principles of processing contained in Article 5 of the GDPR. We will highlight the principle of data minimization contained in Article 5.1(c) of the GDPR, which states that personal data shall be “adequate, relevant and limited to what is necessary in relation to the purposes for which they are processed.”

This means that in a specific processing operation, only the relevant personal data that is necessary to fulfill the purpose for which it is processed may be processed. The processing must be adjusted and proportional to the purpose it aims to achieve. Relevance in the processing of data must occur both at the time of data collection and in the subsequent processing of the same.

In accordance with the above, the processing of excessive data must be restricted or the data must be deleted.

The application of the principle of data minimization in the context of video surveillance implies that

images of public roads cannot be captured, since the processing of images in public places, unless there is government authorization, can only be carried out by the Security Forces and Corps.

On some occasions, for the protection of private spaces, where cameras have been installed on facades or indoors, it may be necessary to record a portion of the public road to ensure the purpose of security.

That is to say, cameras and video cameras installed for security purposes may not capture images of the public road unless it is essential for that purpose or it is impossible to avoid it due to their location. In such an extraordinary case, the cameras may only capture the minimum portion necessary to preserve the safety of individuals and property, as well as their facilities.

Under no circumstances will the use of surveillance practices beyond the area subject to the installation be permitted, particularly not affecting surrounding public spaces, adjacent buildings, and vehicles other than those accessing the monitored space.

The installed cameras may not capture images of third-party private spaces and/or public spaces without a duly justified cause, nor may they affect the privacy of passersby freely moving through the area.

Therefore, the placement of cameras directed at the private property of neighbors with the intention of intimidating them or affecting their private sphere without a justified cause is not permitted.

Images may also not be captured or recorded in spaces owned by third parties without the consent of their owners or, where applicable, of the individuals present in those spaces.

In the present case, from the photographs from the camera submitted to the file, it can be inferred, based on their orientation, that images of the public road and the adjacent dwelling are being captured, which would constitute a breach of data protection regulations.

IV

In accordance with the above, the processing of images through a video surveillance system, to be compliant with current regulations, must meet the following requirements:

1.- Natural or legal persons, public or private, may establish a video surveillance system for the purpose of preserving the safety of individuals and property, as well as their facilities.

It must be assessed whether the intended purpose can be achieved in a less intrusive manner for the rights and freedoms of citizens. Personal data should only be processed if the purpose of the processing cannot reasonably be achieved by other means, considering Recital 39 of the GDPR.

2.- The images obtained may not be used for a subsequent purpose incompatible with the one that motivated the installation of the video surveillance system.

3.- The processing of images through the installation of camera or video camera systems must be lawful and comply with the principles of proportionality and data minimization, as previously indicated.

4.- When the system is connected to an alarm center, it may only be installed by a private security company that meets the requirements set forth in Article 5 of Law 5/2014 on Private Security, dated April 4. It should be noted that individuals are responsible for ensuring that the installed systems comply with current legislation, demonstrating that they meet all the requirements established by the applicable regulations.

In any case, the cameras must be directed towards private spaces, avoiding intimidating neighboring residents with such devices, as well as monitoring transit areas without justified cause.

It is worth noting that even if it is a "dummy" camera, it should preferably be directed towards private

space, as it is considered that such devices can affect the privacy of third parties, who may feel intimidated by the belief that they are subject to permanent recording.

The Spanish Data Protection Agency provides access through its website [<https://www.aepd.es>] to:

- the legislation on personal data protection, including the GDPR and the LOPDGDD (section "Reports and Resolutions" / "Regulations"),
- the Guide on the use of video cameras for security and other purposes,
- the Guide for compliance with the duty to inform (both available in the "Guides and Tools" section).

It is also of interest, in the case of processing low-risk data, the free tool Facilita (in the "Guides and Tools" section), which, through specific questions, allows assessing the situation of the data controller regarding the personal data processing they carry out, and if applicable, generating various documents, informative and contractual clauses, as well as an annex with minimum recommended security measures.

V

It is considered that the facts presented violate the provisions of Article 5.1.c) of the GDPR, constituting an infringement classified under Article 83.5 of the GDPR, which states the following:

"Violations of the following provisions shall be sanctioned, in accordance with paragraph 2, with administrative fines of up to 20,000,000 EUR or, in the case of a company, an amount equivalent to 4% of the total annual global turnover of the previous financial year, opting for the higher amount:

- a) the basic principles for processing, including the conditions for consent under Articles 5, 6, 7, and 9; (...)"

For the purposes of the statute of limitations for infringements, the infringement indicated in the previous paragraph is considered very serious in accordance with Article 72.1 of the LOPDGDD, which establishes that:

"Based on what is established in Article 83.5 of Regulation (EU) 2016/679, the following are considered very serious and shall prescribe after three years: infringements that constitute a substantial violation of the articles mentioned therein and, in particular, the following:

- a) The processing of personal data violating the principles and guarantees established in Article 5 of Regulation (EU) 2016/679.

(...)"

VI

The fine imposed must be, in each individual case, effective, proportionate, and dissuasive, in accordance with the provisions of Article 83.1 of the GDPR. Therefore, it is appropriate to graduate the sanction to be imposed according to the criteria established in Article 83.2 of the GDPR, and as provided in Article 76 of the LOPDGDD, regarding paragraph k) of the aforementioned Article 83.2 GDPR.

In light of the facts presented, it is considered appropriate to impose a sanction on the respondent for the violation of Article 5.1.c) of the GDPR classified under Article 83.5 of the GDPR. The sanction to be imposed is an administrative fine of 300 euros.

VII

Article 58.2 d) of the GDPR indicates that each supervisory authority may "order the controller or processor to ensure that the processing operations comply with the provisions of this Regulation, where appropriate, in a specified manner and within a specified time frame...". In this case, the respondent must proceed, within 30 days from the receipt of this resolution, to:

- The removal of the camera or video camera system from its current location or its reorientation, in such a way that the viewing of the images evidences that it does not capture
 - the neighboring dwelling.
 - the public road.

It is warned that failure to comply with the requirements of this agency may be considered an administrative infringement in accordance with the provisions of the GDPR, classified as an infringement in Articles 83.5 and 83.6, which may lead to the initiation of further administrative sanctioning procedures.

Therefore, in accordance with the applicable legislation and having assessed the criteria for the graduation of the sanctions whose existence has been established, the Director of the Spanish Agency for Data Protection RESOLVES:

FIRST: TO IMPOSE on B.B.B., with NIF ***NIF.1, a fine of 300 euros (THREE HUNDRED euros) for an infringement of Article 5.1.c) of the GDPR, classified under Article 83.5 of the GDPR.

SECOND: To order B.B.B., with NIF ***NIF.1, pursuant to Article 58.2.d) of the GDPR, for an infringement of Article 5.1.c) of the GDPR classified under Article 83.5 of the aforementioned Regulation, and for an infringement of Article 13 of the GDPR, classified under Article 83.5 of the GDPR, to proceed within 30 days from the date this resolution becomes enforceable, to:

- Remove the camera or video camera system from the current location or redirect it, so that the viewing of the images observed clearly shows that it does not capture:

- the adjoining dwelling.
- the public road.

THIRD: NOTIFY this resolution to B.B.B.

FOURTH: Warn the sanctioned party that they must pay the imposed sanction once this resolution becomes enforceable, in accordance with the provisions of Article 98.1.b) of Law 39/2015, of October 1, on the Common Administrative Procedure of Public Administrations (hereinafter LPACAP), within the voluntary payment period established in Article 68 of the General Collection Regulation, approved by Royal Decree 939/2005, of July 29, in relation to Article 62 of Law 58/2003, of December 17, by making the payment, indicating the NIF of the sanctioned party and the procedure number that appears in the heading of this document, into the restricted account No.

IBAN: ES00-0000-0000-0000-0000-0000 (BIC/SWIFT Code: CAIXESBBXXX), opened in the name of the Spanish Agency for Data Protection at the banking entity CAIXABANK, S.A. Otherwise, collection will proceed in the executive period.

Upon receipt of the notification and once it is enforceable, if the date of enforceability falls between the 1st and the 15th of each month, inclusive, the deadline for voluntary payment will be until the 20th of the following month or the next business day thereafter, and if it falls between the 16th and the last day of each month, inclusive, the payment deadline will be until the 5th of the second following month or the next business day thereafter.

In accordance with the provisions of Article 50 of the LOPDGDD, this Resolution will be made public once it has been notified to the interested parties.

Against this resolution, which concludes the administrative procedure in accordance with Article 48.6 of the LOPDGDD, and in accordance with the provisions of Article 123 of the LPACAP, the interested parties may optionally file a motion for reconsideration before the

Director of the Spanish Agency for Data Protection within one month from the day following the notification of this resolution or directly file an administrative contentious appeal before the Contentious-Administrative Chamber of the National Court, in accordance with the provisions of Article 25 and Section 5 of the fourth additional provision of Law 29/1998, of July 13, regulating the Contentious-Administrative Jurisdiction, within two months from the day following the notification of this act, as provided in Article 46.1 of the aforementioned Law.

Finally, it is noted that in accordance with the provisions of Article 90.3 a) of the LPACAP, the firm resolution in the administrative procedure may be provisionally suspended if the interested party expresses their intention to file a contentious-administrative appeal. If this is the case, the interested party must formally communicate this fact by writing to the Spanish Agency for Data Protection,

submitting it through the Electronic Registry of the Agency [<https://sedeagpd.gob.es/sede-electronica-web/>], or through any of the other registries provided for in Article 16.4 of Law 39/2015, of October 1. They must also provide the Agency with documentation that proves the effective filing of the contentious-administrative appeal. If the Agency does not have knowledge of the filing of the contentious-administrative appeal within two months from the day following the notification of this resolution, it will consider the provisional suspension terminated. 938-290523
