

RESOLUTION OF FILE OF PROCEEDINGS

From the proceedings carried out by the Spanish Agency for Data Protection and based on the following

FACTS

FIRST: On September 6, 2023, a complaint was filed with entry registration number A.A.A. before the Spanish Agency for Data Protection against SEUR GEOPOST, S.L. with NIF B82516600 (hereinafter, SEUR GEOPOST). The reasons on which the complaint is based are as follows:

The complainant states that they were the recipient of a package whose delivery management was carried out by the entity being complained about, having delivered the package, without their consent, to a neighbor of the building where they reside, which constitutes an exposure of their data to that neighbor, which they believe constitutes a violation of data protection regulations.

Along with the complaint, a copy of the delivery note and emails sent by the entity being complained about regarding the delivery of the package are provided.

SECOND: In accordance with Article 65.4 of Organic Law 3/2018, of December 5, on Personal Data Protection and Guarantee of Digital Rights (hereinafter LOPDGDD), the complaint was forwarded to SEUR GEOPOST for analysis and to inform this Agency within one month of the actions taken to comply with the requirements set forth in data protection regulations.

The transfer, which was carried out in accordance with the rules established in Law 39/2015, of October 1, on the Common Administrative Procedure of Public Administrations (hereinafter, LPACAP), was acknowledged on October 20, 2023, as evidenced by the acknowledgment of receipt in the file.

On November 17, 2023, this Agency received a response letter indicating:

“FIRST.- In the event that the provision of the delivery service was linked to a contract with the supplier of the product/seller, a copy of the contract signed with that company must be provided.

It is of interest to this party to point out that SEUR maintains a contractual relationship with the company ROSA CREMA SL (hereinafter PRIMOR) where SEUR is obliged to provide PRIMOR with the transportation service consisting of the collection of the shipments that it requests for delivery to the destination.

As requested by the AEPD, Annex I includes an excerpt from the contract signed between SEUR and the company PRIMOR.

SECOND.- The decision made regarding this complaint and the Report on the causes that have motivated the incident that originated the complaint.

Following the receipt of this information request, SEUR has proceeded to investigate the events that occurred and has verified the following:

- That a SEUR delivery person went to the complainant's home to make a delivery.
- That the complainant was absent at the time of delivery.
- That, consequently, the delivery person delivered the complainant's package to the neighbor of 1ºB.

Thus, after analyzing the facts, we consider that the incident occurred as a result of an error by the delivery person, for not having followed SEUR's internal protocols for the correct delivery and collection of goods.

In this regard, SEUR informs the AEPD that, in compliance with the obligations of the applicable regulations of its transportation activity, it has implemented the corresponding procedures and corporate manuals, which determine the guidelines to follow for the correct delivery or collection of goods.

Specifically, SEUR has a manual with the procedures that delivery persons must follow called “Delivery Person Operational Manual,” a document that is provided to them at the time of hiring or the start of service provision with SEUR. According to what is specified in this manual, when a recipient is absent from home, the delivery person will notify the absence in the PDA, automatically triggering a call to the recipient to agree on a new delivery method, among which is the authorized delivery to a third party. Annex II includes screenshots from the manual specifying the obligations of delivery

persons for the correct delivery or collection of goods.

Therefore, through that call, the recipient is given the opportunity to grant their authorization for the delivery person to leave the goods with third parties such as a neighbor, the concierge, etc. If the recipient authorizes this, the delivery person will mark this option in the PDA by pressing the "Authorized delivery at another address" button. All this operation is part of the training provided to delivery persons to comply with SEUR's internal protocols. Annex III includes an excerpt of the training in this regard.

Additionally, SEUR provides delivery persons with other periodic training on the importance of making good use of and diligently handling the personal data they manage daily from senders, recipients, and/or authorized persons. Specifically, one of the latest training actions consisted of disseminating a video titled "Best Practices in Privacy."

3/7

Similarly, as part of these periodic trainings, a training video titled "Delivery Procedure: Absent Customer" has been developed with the aim of reinforcing awareness about the protocol to follow in these cases. An excerpt from this training is included as Annex IV.

For all these reasons, as previously mentioned, we confirm that the incident occurred due to a specific malpractice by the delivery person for not following the internal protocols of the company, and therefore, following a practice not authorized by SEUR.

THIRD.- Report on the measures adopted to prevent similar incidents from occurring, implementation dates, and controls carried out to verify their effectiveness.

As described in the previous section, SEUR has implemented appropriate measures in the various delivery procedures and manuals to prevent the reported events from happening again. Additionally, periodic training is conducted to raise awareness among delivery personnel about these practices, with the aim of respecting the rights regarding data protection of the recipients of goods transported by SEUR.

However, as a result of the incident that occurred, SEUR has reiterated to all delivery personnel the necessity of complying with the established protocol for delivery in case of absence at the residence, emphasizing the obligation to agree on a new delivery method and, if applicable, to request authorization for delivery to third parties. Furthermore, it has been planned to provide all delivery personnel with the training included in Annex IV to reinforce awareness about the protocols to follow. Finally, we want to reiterate our commitment to ensuring at all times the security and confidentiality of the data we manage daily, as well as to comply in a timely manner with the provision of the transportation service of goods contracted by our clients."

THIRD: On November 24, 2023, in accordance with Article 65 of the LOPDGDD, the complaint submitted was admitted for processing.

LEGAL GROUNDS

I

Competence

In accordance with the functions conferred upon each supervisory authority by Article 57.1 a), f), and h) of Regulation (EU) 2016/679 (General Data Protection Regulation, hereinafter GDPR) and as provided in Articles 47 and 48.1 of Organic Law 3/2018, of December 5, on Personal Data Protection and Guarantee of Digital Rights (hereinafter LOPDGDD), the Director of the Spanish Data Protection Agency is competent to resolve these investigative proceedings.

C/ Jorge Juan, 6
www.aepd.es
28001 – Madrid
sedeagpd.gob.es

Furthermore, Article 63.2 of the LOPDGDD states that: "The procedures processed by the Spanish Data Protection Agency shall be governed by the provisions of Regulation (EU) 2016/679, this organic law, the regulatory provisions issued for its development, and, in so far as they do not contradict them, subsidiarily by the general rules on administrative procedures."

II

Preliminary Issues

In the present case, in accordance with the provisions of Article 4.1 of the GDPR, there is evidence of the processing of personal data, since SEUR GEOPOST carries out, among other processes, the retention and use of the following personal data of individuals, such as: name, surname, and address of its clients.

SEUR GEOPOST carries out this activity in its capacity as data controller, as it determines the purposes and means of such activity, by virtue of the aforementioned Article 4.7 of the GDPR.

Article 4, section 12 of the GDPR broadly defines "personal data security breaches" (hereinafter personal data breach) as "all breaches of security that result in the accidental or unlawful destruction, loss, alteration of personal data transmitted, stored, or otherwise processed, or unauthorized communication or access to such data."

III

Presumption of Innocence

In this case, a complaint is made due to the delivery of a package intended for the complainant to the "neighbor" with the observation "1 B," which leads the complainant to consider that the confidentiality of their personal data may have been compromised.

Specifically, the complainant has stated that their data included on the shipping label were exposed to a third party (their neighbor): "with all my personal data on the package label."

This Agency understands that confidentiality will only be affected when access by a third party to personal data that is not public or that was not previously known by that third party is made possible.

Thus, the delivery of the order to a neighbor of the complainant, when no additional data beyond what is strictly necessary for delivery (name and address) is included in the postal shipment, does not compromise the confidentiality of the personal data of the recipient, as no personal data of the complainant that the recipient did not already know is disclosed.

5/7

In conclusion, in the case at hand, the examination of the documents submitted in the proceedings reveals the absence of evidence capable of justifying the initiation of sanctioning proceedings, as it has not been established that personal data of the claimant, beyond their name and address, were exposed to unauthorized third parties, given that the package was delivered to the neighbor residing in the same building as the claimant, and there is no record that any data unknown to the claimant was disclosed to them. The delivery note issued by the courier company, submitted along with the complaint, does not serve to substantiate such a circumstance.

In this regard, it should be emphasized that in the context of administrative sanctions, the guiding principles of criminal law apply, with some nuances but without exceptions, and the principle of the presumption of innocence holds full validity, which must govern without exceptions in the sanctioning framework and must be respected in the imposition of any sanctions. The Constitutional Court in Judgment 76/1990 (STC) considers that the right to the presumption of innocence entails "that the sanction is based on acts or incriminating evidence of the reproached conduct; that the burden of proof lies with the accuser, without anyone being obliged to prove their own innocence; and that any insufficiency in the results of the evidence presented, freely assessed by the sanctioning body, must result in an acquittal."

In accordance with this approach, Article 53.2 of the LPACAP establishes that, in the case of administrative procedures of a sanctioning nature, the alleged responsible parties shall have the

following rights:

“a) (...)”

b) The presumption of non-existence of administrative responsibility until proven otherwise.”

As the Supreme Court clarified in its Judgment of October 26, 1998, the validity of the principle of the presumption of innocence “does not oppose the fact that judicial conviction in a process can be formed based on circumstantial evidence, but for this evidence to undermine that presumption, it must meet the following constitutional requirements: the indications must be fully proven – they cannot be mere suspicions – and the reasoning by which, based on the proven indications, it has been concluded that the accused committed the infringing conduct must be explicit, since otherwise, neither the subsumption would be legally founded nor would there be a way to determine whether the deductive process is arbitrary, irrational, or absurd, that is, whether the right to the presumption of innocence has been violated by considering that the evidentiary activity can be understood as incriminating.”

Thus, it is necessary to distinguish true circumstantial evidence from mere suspicions or conjectures. The Constitutional Court has stated in its Judgment 24/1997 that “the criteria for distinguishing between circumstantial evidence capable of undermining the presumption of innocence and mere suspicions are based on the following: a) The circumstantial evidence must stem from fully proven facts. b) The facts constituting the crime must be deduced from those indications (completely proven facts) through a reasoned mental process in accordance with the rules of reasoning.”

6/7

human, as clarified in the condemning judgment (SSTC 174/1985, 175/1985, 229/1988, 107/1989, 384/1993, and 206/1994, among others).”

In short, the principle of the presumption of innocence prevents the imputation of an administrative infringement when there is no obtained and verified evidence that substantiates the facts that motivate the imputation or the involvement of the alleged infringer in them.

In this case, as has been stated, there are no rational indications that would allow imputing to the claimed party the commission of the infringements of the personal data protection regulations reported, therefore, it is not possible to consider that the right to the presumption of innocence that protects them has been undermined.

IV

Adoption of measures for compliance with the regulations

SEUR GEOPOST states in the document submitted to the AEPD on November 17, 2023, that “...it has implemented adequate measures in the different procedures and delivery manuals to prevent the reported events from occurring again. Furthermore, periodic training is conducted to raise awareness among delivery personnel about these practices, with the aim of respecting the data protection rights of the recipients of goods transported by SEUR.

However, as a result of the incident that occurred, SEUR has reiterated to all delivery personnel the need to comply with the established protocol for delivery in case of absence at the residence, emphasizing the obligation to agree on a new delivery method and, if applicable, to request authorization for delivery to third parties. Additionally, it has been planned to provide all delivery personnel with the training included in Annex IV to reinforce awareness of the protocols to be followed. ...”.

In Annex IV of the documentation provided by SEUR GEOPOST, it is verified that, in the training provided to its staff, the following message is included: “Without prior authorization from the customer, it is NOT allowed to deliver to a nearby store (if it is not a pickup), to a neighbor, or even to the doorman.”

Consequently, it is evident that SEUR GEOPOST has adopted additional measures subsequent to the filing of the complaint. Thus, regardless of what is stated in the previous Legal Basis, the application of

Article 65.6 LOPDGDD is appropriate, which expressly establishes that:

“(...) 6. After the admission for processing, if the data controller or processor demonstrates having adopted measures for compliance with the applicable regulations, the Spanish Agency for Data Protection may resolve to archive the complaint, when in the specific case there are circumstances that advise the adoption of other more moderate or alternative solutions to corrective action, provided that no prior investigation actions or any of the procedures regulated in this organic law have been initiated (...)”.

7/7

V

Conclusion

Therefore, based on what is indicated in Legal Basis III, no evidence has been found that substantiates the existence of an infringement within the jurisdiction of the Spanish Agency for Data Protection.

Furthermore, according to Article 65.6 LOPDGDD, the data controller demonstrates having adopted measures for compliance with the applicable regulations.

All of this is without prejudice to any subsequent actions that this Agency may carry out, applying the investigative and corrective powers it holds.

Thus, since it has not been possible to attribute any responsibility for the exposure of the personal data of the complainant, in accordance with what has been stated, by the Director of the Spanish Agency for Data Protection, IT IS AGREED:

FIRST: TO ARCHIVE the present proceedings.

SECOND: TO NOTIFY this resolution to SEUR GEOPOST, S.L. and to the complainant.

In accordance with the provisions of Article 50 of the LOPDGDD, this Resolution will be made public once it has been notified to the interested parties.

Against this resolution, which concludes the administrative procedure as prescribed by Article 114.1.c) of Law 39/2015, of October 1, on the Common Administrative Procedure of Public Administrations, and in accordance with the provisions of Articles 112 and 123 of the aforementioned Law 39/2015, of October 1, the interested parties may optionally file a motion for reconsideration before the Director of the Spanish Agency for Data Protection within one month from the day following the notification of this resolution or directly file a contentious-administrative appeal before the Contentious-Administrative Chamber of the National Court, in accordance with the provisions of Article 25 and Section 5 of the fourth additional provision of Law 29/1998, of July 13, regulating the Contentious-Administrative Jurisdiction, within two months from the day following the notification of this act, as provided in Article 46.1 of the aforementioned Law.
