File No.: EXP202315571

## AGREEMENT TO INITIATE SANCTIONING PROCEDURE

From the actions taken by the Spanish Agency for Data Protection and based on the following  
FACTS

FIRST: On 10/05/2023, a document was submitted to this Agency by A.A.A. (hereinafter, the complaining party), in which a complaint is made against QUIRÓN PREVENCIÓN, S.L.U. with NIF B64076482 (hereinafter, QUIRÓN PREVENCIÓN), for a possible breach of the provisions of personal data protection regulations.

The reasons for the complaint are as follows:

The complaining party states that, as a result of the complaint filed with the Labor and Social Security Inspectorate for possible harassment situations against her in the workplace, a mediation process was followed between the complaining party and other workers involved in the events; where they were informed that personal data would be protected due to the seriousness of the accusations.

When the final mediation report was submitted by QUIRÓN PREVENCIÓN, the personal data of the complaining party and the accused were displayed (they appear blurred, but can be read). However, when the complaining party alerted the person responsible for the report about this situation, the personal data did appear to be crossed out.

Finally, the complaining party indicates that the process is judicialized, but considers the management that QUIRÓN PREVENCIÓN has made of her personal data to be disastrous.

Along with the complaint, she submits, among others, the following documents:

- Copy of the mediation report issued on \*\*\*DATE.1 by QUIRÓN PREVENCIÓN with its annexes (Mediation Report as External Advisors in Situations of Psychosocial Risk Indicators Due to Internal Conflict in the Workplace).

Its content includes the following personal data of the complaining party and the accused (name and surname, ID number, mobile number, and email):

- o Complaining party: A.A.A., ID \*\*\*NIF.1, \*\*\*PHONE.1, \*\*\*EMAIL.1.

- o Accused parties:

- ☐ B.B.B., ID \*\*\*NIF.2, \*\*\*PHONE.2, \*\*\*EMAIL.2.

- ☐ C.C.C., ID \*\*\*NIF.3, \*\*\*PHONE.3, \*\*\*EMAIL.3.

- Screenshot of the following emails:

- o Email sent on \*\*\*DATE.2 by the complaining party (\*\*\*EMAIL.1) to the mediation services of QUIRÓN PREVENCIÓN (\*\*\*EMAIL.4) warning that personal data is reflected in the final mediation report. Its content is as follows:

(...).

- o Email dated \*\*\*DATE.3 sent by QUIRÓN PREVENCIÓN (\*\*\*EMAIL.4) to, among others, the complaining party with 3 PDF documents related to "Mediation Report," "Start Minutes," and "Final Minutes XXXXX."

SECOND: In accordance with Article 65.4 of Organic Law 3/2018, of December 5, on Personal Data Protection and Guarantee of Digital Rights (hereinafter LOPDGDD), on 11/03/2023, the aforementioned complaint was forwarded to QUIRÓN PREVENCIÓN, for them to analyze it and inform this Agency within one month of the actions taken to comply with the requirements established in the

data protection regulations.

The forwarding, which was carried out in accordance with the rules established in Law 39/2015, of October 1, on the Common Administrative Procedure of Public Administrations (hereinafter, LPACAP), was recorded on 11/03/2023 as evidenced by the acknowledgment of receipt in the file.

On 04/12/2023, this Agency received a response from QUIRÓN PREVENCIÓN in which, in summary, it acknowledges having sent an email on 02/11/2023 to the technical staff of its entity and to the interested parties and participants in the labor mediation, with the final mediation report containing personal data of the participants.

Furthermore, QUIRÓN PREVENCIÓN states that the parties involved in the mediation "formally accepted the mediation process and were expressly informed not only of the purpose of the mediation but also of their obligations regarding confidentiality." Therefore, the intervening parties are subject to not "disclosing any information that may have been obtained as a result of the procedure."

Along with the response, a copy of the Final Mediation Report with its annexes is provided.

THIRD: On 28/12/2023, in accordance with Article 65 of the LOPDGDD, the claim submitted by the claimant was admitted for processing.

FOURTH: According to the report obtained from the AXESOR tool, the entity QUIRÓN PREVENCIÓN, S.L.U. is a large company established in 2006, belonging to the economic group HELIOS HEALTHCARE SPAIN, S.L., with a turnover of nearly 400,000,000 euros in 2023.

## LEGAL GROUNDS

I

### Competence and Procedure

In accordance with the powers granted to each supervisory authority by Article 58.2 of Regulation (EU) 2016/679 (General Data Protection Regulation, hereinafter GDPR), and as established in Articles 47, 48.1, 64.2, and 68.1 of Organic Law 3/2018, of December 5, on Personal Data Protection and the guarantee of digital rights (hereinafter, LOPDGDD), the Director of the Spanish Agency for Data Protection is competent to initiate and resolve this procedure.

Furthermore, Article 63.2 of the LOPDGDD states: "The procedures processed by the Spanish Agency for Data Protection shall be governed by the provisions of Regulation (EU) 2016/679, by this organic law, by the regulatory provisions issued for its development, and, in so far as they do not contradict them, subsidiarily by the general rules on administrative procedures."

II

### Preliminary Issues

In the present case, in accordance with the provisions of Articles 4.1 and 4.2 of the GDPR, it is established that there has been processing of personal data, since QUIRÓN PREVENCIÓN collects, uses, and retains, among others, the following personal data of individuals: name and surname, ID number, mobile number, and email address.

QUIRÓN PREVENCIÓN carries out this activity in its capacity as data controller, as it is the entity that determines the purposes and means of such activity, by virtue of Article 4.7 of the GDPR.

Within the principles of processing provided for in Article 5 of the GDPR, the integrity and confidentiality of personal data is guaranteed in paragraph 1 letter f) of the aforementioned article. For its part, the security of personal data is regulated in Article 32 of the GDPR, which governs the security of processing.

III

### Principle of Integrity and Confidentiality

Article 5.1.f) "Principles relating to processing" of the GDPR establishes:

"1. Personal data shall be:

(...)

f) processed in a manner that ensures an appropriate level of security of personal data, including

protection against unauthorized or unlawful processing and against accidental loss, destruction, or damage, through the application of appropriate technical or organizational measures ('integrity and confidentiality')."

In this case, it is noted that, on \*\*\*DATE.1, QUIRÓN PREVENCIÓN sent an email to the claimant with a copy of the final labor mediation report and its annexes, which included their personal data and that of the respondents, such as name and surname, ID number, mobile number, and email address.

For its part, QUIRÓN PREVENCIÓN acknowledged in its response to the transfer that it had sent the aforementioned email, but only to its technical staff and to the parties involved in the labor mediation process, with the obligation for them to maintain secrecy and ensure confidentiality.

However, it is evident that QUIRÓN PREVENCIÓN improperly disclosed certain personal data of, among others, the claimant and the respondents, as their ID numbers, mobile numbers, or email addresses did not appear anonymized in the sent document. This constitutes a violation of the obligation of the responding entity to ensure the confidentiality of the data, exposing the aforementioned personal data to the intervening parties.

Additionally, the documentation in the administrative file provides sufficient indications to understand that QUIRÓN PREVENCIÓN lacks the appropriate technical and organizational measures referred to in the mentioned article.

Therefore, in accordance with the evidence available at this moment regarding the initiation of the sanctioning procedure, and without prejudice to the outcome of the instruction, it is considered that the known facts could constitute an infringement attributable to QUIRÓN PREVENCIÓN for violation of Article 5.1.f) of the GDPR.

IV

Classification and qualification of the infringement of Article 5.1.f) of the GDPR

If confirmed, the aforementioned infringement of Article 5.1.f) of the GDPR could imply the commission of the infringements classified in Article 83.5 of the GDPR, which under the heading "General conditions for the imposition of administrative fines" states:

"The infringements of the following provisions shall be sanctioned, in accordance with paragraph 2, with administrative fines of up to 20,000,000 EUR or, in the case of an enterprise, an amount equivalent to a maximum of 4% of the total annual global turnover of the previous financial year, opting for the higher amount:

a) the basic principles for processing, including the conditions for consent under Articles 5, 6, 7, and 9; (...)"

For the purposes of the statute of limitations, Article 72 "Very serious infringements" of the LOPDGDD indicates:

"1. Based on what is established in Article 83.5 of Regulation (EU) 2016/679, the following infringements are considered very serious and shall be subject to a three-year statute of limitations, which involve a substantial violation of the articles mentioned therein and, in particular, the following:

a) The processing of personal data in violation of the principles and guarantees established in Article 5 of Regulation (EU) 2016/679. (...)"

V

Proposal for sanction for the infringement of Article 5.1.f) of the GDPR

For the purpose of deciding on the imposition of an administrative fine and its amount, in accordance with the evidence available at this moment regarding the initiation of the sanctioning procedure, and without prejudice to the outcome of the instruction, it is considered appropriate to scale the sanction to be imposed according to the following criteria established in Article 83.2 of the GDPR:

As aggravating factors:

- The nature, gravity, and duration of the infringement, taking into account the nature, scope, or purpose of the processing operation in question, as well as the number of affected parties and the level

of damage and harm they have suffered (paragraph a). The infringing conduct is serious as it entails a loss of confidentiality and, therefore, of irreparable disposition and control over the personal data of the affected individuals, who are not only the complaining party but also the two reported parties.

- The intentionality or negligence in the infringement (paragraph b). The negligence observed in the commission of the infringement, considering that there is a conflict among the affected parties arising from a situation of harassment in the workplace towards the complaining party, making it even more necessary to prevent the parties from accessing the personal data of others in these processes.

- The categories of personal data affected by the infringement (paragraph g). The final report of labor mediation contains personal data related to the ID number of, among others, the complaining party. This data is considered particularly sensitive in that, if the processing of this data is not accompanied by the necessary technical and organizational measures to ensure that the person identified by it is indeed its owner, a third party could impersonate the identity of a natural person with the risks that this entails for the privacy, honor, and property of the impersonated individual.

Furthermore, it is considered appropriate to scale the sanction to be imposed according to the following criteria established in paragraph 2 of Article 76 "Sanctions and corrective measures" of the LOPDGDD:

- The link of the infringer's activity with the processing of personal data (paragraph b). The activity of QUIRÓN PREVENCIÓN requires habitual processing of personal data.

The balance of the circumstances contemplated in Article 83.2 of the GDPR and 76.2 of the LOPDGDD, regarding the infringement committed by violating what is established in Article 5.1.f) of the GDPR, allows for an initial administrative fine of €30,000 (thirty thousand euros).

VI

#### Security of processing

Article 32 "Security of processing" of the GDPR states:

"1. Taking into account the state of the art, the costs of implementation, and the nature, scope, context, and purposes of the processing, as well as the risks of varying probability and severity for the rights and freedoms of natural persons, the controller and the processor shall implement appropriate technical and organizational measures to ensure a level of security appropriate to the risk, which may include, among others:

- a) the pseudonymization and encryption of personal data;

- b) the ability to ensure the ongoing confidentiality, integrity, availability, and resilience of processing systems and services;

C/ Jorge Juan, 6

[www.aepd.es](http://www.aepd.es)

28001 – Madrid

[sedeagpd.gob.es](mailto:sedeagpd.gob.es)

7/14

- b) the ability to restore the availability and access to personal data quickly in the event of a physical or technical incident;

- c) a process of regular verification, evaluation, and assessment of the effectiveness of the technical and organizational measures to ensure the security of the processing.

2. In assessing the adequacy of the security level, particular consideration shall be given to the risks presented by the data processing, particularly as a consequence of the accidental or unlawful destruction, loss, or alteration of personal data transmitted, stored, or otherwise processed, or the unauthorized communication or access to such data.

3. Adherence to an approved code of conduct pursuant to Article 40 or to an approved certification mechanism pursuant to Article 42 may serve as a factor to demonstrate compliance with the requirements set out in paragraph 1 of this article.

4. The data controller and the processor shall take measures to ensure that any person acting under the authority of the controller or the processor and having access to personal data may only process such data in accordance with the instructions of the controller, unless required to do so by Union or Member State law."

In this case, the sending of the Final Labor Mediation Report and its annexes by email on \*\*\*DATE.1 to

the claiming party without anonymizing the data of the participants evidences a lack of measures on the part of QUIRÓN PREVENCIÓN. Furthermore, the entity being claimed is aware of the irregularity of the data communication, as one day after the warning from the claiming party, the entity resent the mediation report with the data redacted.

On the other hand, QUIRÓN PREVENCIÓN has not demonstrated the security measures it has in place to prevent the documents it drafts from containing personal data of the participants in the processes without anonymization. As the data controller, it should have implemented security measures and ensured their compliance, which has not been evidenced to this Agency thus far. Consequently, in accordance with the evidence available at this moment regarding the initiation of sanctioning proceedings, and without prejudice to what results from the instruction, it is considered that the known facts could constitute an infringement attributable to QUIRÓN PREVENCIÓN for violation of Article 32 of the GDPR.

## VII

Classification and qualification of the infringement of Article 32 of the GDPR

If confirmed, the aforementioned infringement of Article 32 of the GDPR could constitute the commission of the infringements classified in Article 83.4 of the GDPR, which under the heading "General conditions for the imposition of administrative fines" provides:

"Violations of the following provisions shall be sanctioned, in accordance with paragraph 2, with administrative fines of up to 10,000,000 EUR or, in the case of an enterprise, an amount equivalent to a maximum of 2% of the total annual global turnover of the previous financial year, opting for the higher amount:

a) the obligations of the controller and the processor under Articles 8, 11, 25 to 39, 42, and 43; (...)"

For the purposes of the limitation period, Article 73 "Serious infringements" of the LOPDGDD indicates:

"According to what is established in Article 83.4 of Regulation (EU) 2016/679, serious infringements shall be considered and shall prescribe after two years those that imply a substantial violation of the articles mentioned therein and, in particular, the following:

(...)

f) The failure to adopt those technical and organizational measures that are appropriate to ensure a level of security adequate to the risk of processing, as required by Article 32.1 of Regulation (EU) 2016/679." (...)

## VIII

Proposal for sanction for the infringement of Article 32 of the GDPR

For the purpose of deciding on the imposition of an administrative fine and its amount, in accordance with the evidence available at this moment regarding the initiation of sanctioning proceedings, and without prejudice to what results from the instruction, it is considered appropriate to grade the sanction to be imposed according to the following criteria established in Article 83.2 of the GDPR:

As aggravating factors:

- The nature, gravity, and duration of the infringement, taking into account the nature, scope, or purpose of the processing operation in question, as well as the number of affected parties and the level of damage and harm suffered (paragraph a). The lack of appropriate security measures in relation to the risk led to unauthorized access to personal data, not only of the claiming party but also of the other complainants.

- The intentionality or negligence in the infringement (paragraph b). The negligence observed in the commission of the infringement, considering that there is a conflict among the affected parties arising from a situation of harassment in the workplace towards the claiming party, making it even more necessary to prevent the parties from accessing the personal data of others in these processes.

C/ Jorge Juan, 6

www.aepd.es  
28001 – Madrid  
sedeagpd.gob.es  
9/14

- The categories of personal data affected by the infringement (section g). The final labor mediation report contains the personal data related to the ID number of, among others, the claiming party. This data is considered particularly sensitive in that, if the processing of this data is not accompanied by the necessary technical and organizational measures to ensure that the person identified by it is indeed its owner, a third party may impersonate an individual, with the risks this entails for the privacy, honor, and property of the impersonated person.

Furthermore, it is considered appropriate to adjust the sanction to be imposed according to the following criteria established in section 2 of article 76 "Sanctions and corrective measures" of the LOPDGDD:

- The link between the infringer's activity and the processing of personal data (section b). The activity of QUIRÓN PREVENCIÓN requires continuous processing of personal data.

The balance of the circumstances contemplated in article 83.2 of the GDPR and 76.2 of the LOPDGDD, regarding the infringement committed by violating what is established in article 5.1.f) of the GDPR, allows for an initial administrative fine of €20,000 (twenty thousand euros).

IX

#### Adoption of measures

If the infringement is confirmed, it may be agreed to impose on the responsible party the adoption of appropriate measures to adjust its actions to the regulations mentioned in this act, in accordance with what is established in the aforementioned article 58.2 d) of the GDPR, according to which each supervisory authority may "order the controller or processor to ensure that the processing operations comply with the provisions of this Regulation, where appropriate, in a specified manner and within a specified timeframe...". The imposition of this measure is compatible with the sanction consisting of an administrative fine, as provided in article 83.2 of the GDPR.

In such a case, in the resolution that is adopted, this Agency may require the responsible entity to, within a period of two months, adjust its actions to the personal data protection regulations, to the extent expressed in the Legal Foundations of this agreement and without prejudice to what results from the instruction.

It is warned that failure to comply with the possible order to adopt measures imposed by this agency in the sanctioning resolution may be considered an administrative infringement in accordance with the provisions of the GDPR, classified as an infringement in its articles 83.5 and 83.6, which may lead to the initiation of further administrative sanctioning proceedings.

Therefore, in light of the above, by the Director of the Spanish Agency for Data Protection,  
C/ Jorge Juan, 6

In the same way, at any time prior to the resolution of this procedure, the voluntary payment of the proposed sanction may be made, which will entail a reduction of 20% of its amount. With the application of this reduction, the sanction would be set at €40,000 (forty thousand euros), and its payment will imply the termination of the procedure, without prejudice to the imposition of the corresponding measures.

The reduction for the voluntary payment of the sanction is cumulative with the one corresponding to the acknowledgment of responsibility, provided that this acknowledgment of responsibility is made within the period granted to submit allegations regarding the opening of the procedure. The voluntary payment of the amount referred to in the previous paragraph may be made at any time prior to the resolution. In this case, if both reductions were applicable, the amount of the sanction would be set at €30,000 (thirty thousand euros).

In any case, the effectiveness of either of the two mentioned reductions will be conditioned upon the express withdrawal or renunciation of any action or administrative appeal against the sanction.

The procedure will have a maximum duration of twelve months from the date of the initiation agreement. After this period, it will expire, and consequently, the file will be archived; in accordance

with the provisions of Article 64 of the LOPDGDD.

Finally, it is noted that according to the provisions of Article 112.1 of the LPACAP, no administrative appeal can be made against this act.
