File No.: EXP202300013

RESOLUTION No.: R/00373/2023

Considering the complaint filed on December 4, 2022, with this Agency by A.A.A. (hereinafter the complainant), against the EXTREMADURA HEALTH SERVICE (hereinafter the respondent), for not having duly attended to their request to exercise rights established in Regulation (EU) 2016/679 of the European Parliament and of the Council of April 27, 2016, regarding the protection of natural persons with regard to the processing of personal data and the free movement of such data (hereinafter, GDPR).

After carrying out the procedural actions provided for in Title VIII of Organic Law 3/2018, of December 5, on the Protection of Personal Data and guarantee of digital rights (hereinafter LOPDGDD), the following has been established:

FACTS

FIRST: The complainant exercised the right of access to their medical history against the respondent, and their request, as stated by the complainant, did not receive the legally established response. The complainant provides various documentation related to the complaint filed with this Agency and regarding the exercise of the right exercised.

SECOND: Once the procedure provided for in Article 65.4 of the LOPDGDD was fulfilled, the complaint was admitted for processing, and the respondent was granted a hearing period, to present any allegations they deemed appropriate within ten working days.

The respondent has not demonstrated, during the formalized procedures, that they have responded to the request for the exercise of rights presented by the complainant.

LEGAL GROUNDS

FIRST: The Director of the Spanish Agency for Data Protection is competent to resolve this matter, in accordance with the provisions of paragraph 2 of Article 56 in relation to paragraph 1 f) of Article 57, both of the GDPR; and in Article 47 of the LOPDGDD.

SECOND: In accordance with the provisions of Article 55 of the GDPR, the Spanish Agency for Data Protection is competent to perform the functions assigned to it in Article 57, including the enforcement of the Regulation and promoting awareness among controllers and processors regarding their obligations, as well as handling complaints submitted by a data subject and investigating the reasons for them.

Correspondingly, Article 31 of the GDPR establishes the obligation of controllers and processors to cooperate with the supervisory authority that requests it in the performance of its functions. In cases where they have designated a data protection officer, Article 39 of the GDPR assigns this officer the function of cooperating with that authority.

Likewise, the internal legal framework, in Article 65.4 of the LOPDGDD, has provided a mechanism prior to the admission of complaints filed with the Spanish Agency for Data Protection, which consists of forwarding them to the data protection officers designated by the controllers or processors, for the purposes provided for in Article 37 of the aforementioned regulation, or to them when they have not designated any, so that they can analyze these complaints and respond to them within one month.

In accordance with this regulation, prior to the admission of the complaint that gives rise to this procedure, it was forwarded to the responsible entity for them to analyze it, respond to this Agency within one month, and demonstrate that they had provided the complainant with the due response, in the event of exercising the rights regulated in Articles 15 to 22 of the GDPR.

The result of this forwarding did not allow for the understanding that the complainant's claims were satisfied. Consequently, on March 4, 2023, for the purposes provided for in Article 64.2 of the LOPDGDD, the Director of the Spanish Agency for Data Protection agreed to admit the complaint for processing. This admission agreement determines the opening of the present procedure for the lack of attention to a request for the exercise of the rights established in Articles 15 to 22 of the GDPR, regulated in Article 64.1 of the LOPDGDD, according to which:

“1. When the procedure refers exclusively to the lack of attention to a request for the exercise of the rights established in Articles 15 to 22 of Regulation (EU) 2016/679, it will be initiated by an admission

agreement, which will be adopted in accordance with the provisions of the following article.

In this case, the deadline for resolving the procedure will be six months from the date on which the admission agreement was notified to the complainant. Once this period has elapsed, the interested party may consider their complaint accepted.”

It is not deemed appropriate to clarify administrative responsibilities within the framework of a sanctioning procedure, whose exceptional nature implies that, whenever possible, preference is given to alternative mechanisms that are supported by current regulations.

It is the exclusive competence of this Agency to assess whether there are administrative responsibilities that should be clarified in a sanctioning procedure and, consequently, the decision on its opening, with no obligation to initiate a

3/7

procedure before any request made by a third party. Such a decision must be based on the existence of elements that justify the initiation of sanctioning activity, circumstances that do not occur in the present case, considering that with the present procedure the guarantees and rights of the claimant are duly restored.

THIRD: The rights of individuals regarding the protection of personal data are regulated in Articles 15 to 22 of the GDPR and Articles 13 to 18 of the LOPDGDD. The rights of access, rectification, deletion, opposition, the right to restrict processing, and the right to data portability are contemplated. The formal aspects related to the exercise of these rights are established in Articles 12 of the GDPR and 12 of the LOPDGDD.

Additionally, consideration is given to what is expressed in Recitals 59 and following of the GDPR.

In accordance with the provisions of these regulations, the data controller must establish formulas and mechanisms to facilitate the exercise of rights by the data subject, which will be free of charge (without prejudice to the provisions of Articles 12.5 and 15.3 of the GDPR), and is obliged to respond to requests made no later than one month, unless it can demonstrate that it is unable to identify the data subject, and to express its reasons in case it does not intend to comply with such request. The burden of proof regarding compliance with the duty to respond to the request for the exercise of rights made by the affected party lies with the data controller.

The communication addressed to the data subject regarding their request must be expressed in a concise, transparent, intelligible, and easily accessible manner, using clear and simple language.

Regarding the right of access to personal data, in accordance with the provisions of Article 13 of the LOPDGDD, when the exercise of the right refers to a large amount of data, the controller may request the affected party to specify the “data or processing activities to which the request refers.” The right will be understood as granted if the controller provides remote access to the data, considering the request as attended (although the data subject may request information regarding the aspects provided in Article 15 of the GDPR).

The exercise of this right may be considered repetitive more than once during a period of six months, unless there is a legitimate reason for it.

On the other hand, the request will be considered excessive when the affected party chooses a means other than the one offered that entails a disproportionate cost, which must be borne by the affected party.

FOURTH: In accordance with the provisions of Article 15 of the GDPR and Article 13 of the LOPDGDD, “the data subject has the right to obtain from the data controller confirmation as to whether or not personal data concerning them is being processed and, if so, the right of access to the personal data.”

Like the other rights of the data subject, the right of access is a personal right. It allows the citizen to obtain information about the processing of their data, the possibility of obtaining a copy of the personal data concerning them that is being processed, as well as information, in particular, about the purposes of the processing, the categories of personal data involved, the recipients or categories of recipients to whom the personal data have been or will be communicated, the expected retention period or criteria for retention, the possibility of exercising other rights, the right to lodge a complaint with the supervisory authority, the information available about the source of the data (if it has not been obtained directly from the data subject), the existence of automated decisions, including profiling, and information about transfers of personal data to a third country or to an international organization. The possibility of obtaining a copy of the personal data being processed shall not adversely affect the rights and freedoms of others; that is, the right of access shall be granted in such a way that it does not affect third-party data.

The right of access concerning medical records is specifically regulated in Article 18 of Law 41/2002, of November 14, which is the basic regulation governing Patient Autonomy and Rights and Obligations in the Field of Information and Clinical Documentation (hereinafter LAP), the literal text of which states: "1. The patient has the right of access, with the reservations indicated in section 3 of this article, to the documentation of the medical record and to obtain a copy of the data contained therein. Health centers shall regulate the procedure that guarantees the observance of these rights.

2. The patient's right of access to the medical record may also be exercised by duly accredited representation.

3. The patient's right of access to the documentation of the medical record may not be exercised to the detriment of the right of third parties to the confidentiality of the data contained therein collected in the therapeutic interest of the patient, nor to the detriment of the right of the professionals involved in its preparation, who may oppose the right of access the confidentiality of their subjective notes.

4. Health centers and individual practitioners shall only facilitate access to the medical records of deceased patients to persons linked to them, for family or factual reasons, unless the deceased expressly prohibited it and this is evidenced. In any case, access by a third party to the medical record motivated by a risk to their health shall be limited to the relevant data. Information affecting the privacy of the deceased or the subjective notes of the professionals, or that harms third parties, shall not be provided."

In this regard, it is important to highlight Article 15 of the LPA, which outlines the minimum content of the medical record:

"1. The medical record shall incorporate the information deemed essential for the truthful and updated knowledge of the patient's health status. Every patient or user has the right to have a record, in writing or in the most appropriate technical support, of the information obtained in all their care processes, carried out by the health service both in the primary care and specialized care settings.

2. The main purpose of the medical record shall be to facilitate healthcare, documenting all those data that, under medical criteria, allow for the truthful and updated knowledge of the health status.

The minimum content of the medical record shall be as follows:

- a) The documentation related to the clinical-statistical sheet.
- b) The admission authorization.
- c) The emergency report.
- d) The anamnesis and physical examination.
- e) The evolution.
- f) The medical orders.
- g) The consultation sheet.
- h) The reports of complementary examinations.
- i) The informed consent.
- j) The anesthesia report.
- k) The operating room report or childbirth record.
- l) The pathological anatomy report.

m) The evolution and planning of nursing care.

n) The therapeutic application of nursing.

ñ) The vital signs chart.

o) The clinical discharge report.

Paragraphs b), c), i), j), k), l), n) and o) shall only be required in the completion of the medical record when it concerns hospitalization processes or as otherwise provided.

3. The completion of the medical record, in aspects related to direct patient care, shall be the responsibility of the professionals involved in it.

4. The medical record shall be maintained with criteria of unity and integration, in each healthcare institution at a minimum, to facilitate the best and most timely knowledge by the professionals of the data of a particular patient in each care process" (the underlining is from the Spanish Agency for Data Protection).

Regarding the retention of the medical record, Article 17 of the LPA, in its points 1 and 5, states that:

"1. Health centers have the obligation to retain clinical documentation under conditions that guarantee its proper maintenance and security, although not necessarily in the original format, for the appropriate care of the patient for the time deemed adequate in each case and, at a minimum, five years from the date of discharge from each care process...

5. Healthcare professionals who carry out their activity individually are responsible for the management and custody of the care documentation they generate."

6/7

FIFTH: In the case analyzed here, the claimant exercised their right of access to the medical history.

After the period established in the aforementioned regulations had elapsed, their request did not receive the legally required response. The entity being claimed against has not attended to the claimant's request nor to the demands that have been sent to it by this Agency.

The aforementioned regulations do not allow the request to be disregarded as if it had not been made, leaving it without the response that those responsible are obliged to issue, even in the event that there are no data of the interested party in the entity's files or even in those cases where the requirements are not met, in which case the recipient of such a request is also obliged to require the correction of the observed deficiencies or, if applicable, to deny the request with justification indicating the reasons why the right in question cannot be considered.

Therefore, the request made obliges the responsible party to provide an express response, in any case, using any means that justifies the receipt of the response.

Since a copy of the necessary communication that must be directed to the claimant informing them of the decision made regarding the exercise of rights request has not been provided, it is appropriate to uphold the claim that originated this procedure.

In view of the cited provisions and others of general application, the Director of the Spanish Agency for Data Protection RESOLVES:

FIRST: TO UPHOLD the claim made by A.A.A. and to urge the EXTREMADURA HEALTH SERVICE, with NIF S0611001I, to send the claimant a certification within ten working days following the notification of this resolution, addressing the exercised right of access or denying it with justification indicating the reasons why the request cannot be attended to, in accordance with what is established in the body of this resolution. The actions taken as a result of this Resolution must be communicated to this Agency within the same period. Non-compliance with this resolution could result in the commission of an infringement of Article 83.6 of the GDPR, classified as very serious for the purposes of prescription in Article 72.1.m) of the LOPDGDD, which will be sanctioned in accordance with Article 58.2 of the GDPR.

SECOND: NOTIFY this resolution to A.A.A. and to the EXTREMADURA HEALTH SERVICE.

In accordance with the provisions of Article 50 of the LOPDGDD, this Resolution will be made public once it has been notified to the interested parties.

Against this resolution, which concludes the administrative process (Article 18.4 of the LOPD), and in accordance with the provisions of Article 123 of Law 39/2015, of October 1, on the Common Administrative Procedure of Public Administrations, a voluntary appeal for reconsideration may be filed before the Director of the

Spanish Agency for Data Protection, within one month from the day following the notification of this resolution, or directly an administrative contentious appeal before the Contentious-Administrative Chamber of the National Court, in accordance with the provisions of Article 25 and Section 5 of the Fourth Additional Provision of Law 29/1998, of July 13, regulating Contentious-Administrative Jurisdiction, within two months from the day following the notification of this act, as provided in Article 46.1 of the aforementioned legal text.
