

RESOLUTION OF RIGHTS PROCEDURE

Having reviewed the complaint registered on September 5, 2024, with this Agency and having carried out the procedural actions provided for in Title VIII of Organic Law 3/2018, of December 5, on the Protection of Personal Data and Guarantee of Digital Rights (hereinafter LOPDGDD), the following FACTS have been established:

FIRST: A.A.A. (hereinafter, the complainant) exercised the right of access to their medical history against LA GAVIA ASESORES, S.L.U. (hereinafter, the respondent) without their request receiving the legally established response. The complainant requested access to their personal data from the respondent "LA GAVIA ASESORES, S.L.U." on 10/07/24 and has not received a response.

SECOND: In accordance with Article 65.4 of the LOPDGDD, the aforementioned complaint was forwarded to the respondent for analysis and to inform this Agency within one month of the actions taken to comply with the requirements set forth in data protection regulations. No response has been recorded in this Agency.

THIRD: The result of the transfer procedure indicated in the previous Fact did not allow for the understanding that the complainant's claims were satisfied. Consequently, on December 5, 2024, for the purposes provided for in Article 64.1 of the LOPDGDD, the Director of the Spanish Agency for the Protection of Data agreed to admit the complaint for processing. The aforementioned agreement granted the respondent a hearing period, to present any allegations they deemed appropriate within ten working days.

On March 10, 2025, the respondent submitted a document referencing several files processed by this Agency, and in relation to the present procedure, indicates that,

"(...) having requested the companies in bankruptcy for information regarding this matter, they have communicated that, prior to the declaration of Bankruptcy, the companies had an external service (MICROLAB) that complied with the obligations referred to in the complaint.

Due to the insolvency situation faced by the bankrupt companies, this service ceased to be provided and was terminated due to non-payment for its services.

After the declaration of bankruptcy, the bankrupt companies have not made available to this party the material or technical means so that, if applicable, compliance could be given to any information requests that may be made by the interested parties.

Furthermore, given the bankruptcy situation of the aforementioned companies, and considering the situation of insufficient active mass for the payment of claims against the mass that has been communicated to the bankruptcy, it is not possible to restore said service."

LEGAL GROUNDS

I

Competence

In accordance with the powers granted to each supervisory authority by Article 58.2 of Regulation (EU) 2016/679 (General Data Protection Regulation, hereinafter GDPR), and as established in Articles 47, 48.1, and 64.1 of the LOPDGDD, the Presidency of the Spanish Agency for the Protection of Data is competent to resolve this procedure.

Additionally, Article 63.2 of the LOPDGDD states that: "The procedures processed by the Spanish Agency for the Protection of Data will be governed by the provisions of Regulation (EU) 2016/679, by this organic law, by the regulatory provisions issued in its development, and, as long as they do not contradict them, subsidiarily by the general rules on administrative procedures."

II

Preliminary Issues

In accordance with the provisions of Article 55 of the GDPR, the Spanish Agency for the Protection of Data is competent to perform the functions assigned to it in Article 57, including the enforcement of the Regulation and promoting awareness among data controllers and processors regarding their

obligations, as well as addressing complaints submitted by an interested party and investigating, as appropriate, the reasons for them.

Correspondingly, Article 31 of the GDPR establishes the obligation of data controllers and processors to cooperate with the supervisory authority that requests it in the performance of its functions. In cases where they have appointed a data protection officer, Article 39 of the GDPR assigns them the function of cooperating with that authority.

In accordance with this regulation, following the procedure provided for in Article 65.4 of the LOPDGDD, prior to the admission for processing of the complaint regarding the exercise of the rights regulated in Articles 15 to 22 of the GDPR, which gives rise to the

3/8

In the present procedure, the claim was forwarded to the respondent party for analysis, to respond to this Agency within a month, and to prove that they had provided the claimant with the appropriate response.

The result of this forwarding did not allow for the understanding that the claims of the claimant were satisfied. Consequently, on December 5, 2024, for the purposes provided in articles 64.1 and 65 of the LOPDGDD, the complaint submitted was admitted for processing. This admission for processing determines the opening of the present procedure regarding the lack of attention to a request for the exercise of the rights established in articles 15 to 22 of the GDPR, regulated in article 64.1 of the LOPDGDD, according to which:

“When the procedure refers exclusively to the lack of attention to a request for the exercise of the rights established in articles 15 to 22 of Regulation (EU) 2016/679 of the European Parliament and of the Council, of April 27, 2016, it will be initiated by an admission agreement, which will be adopted in accordance with the provisions of article 65 of this organic law.

In this case, the deadline for resolving the procedure will be six months from the date on which the claimant was notified of the admission agreement. After this period, the interested party may consider their complaint accepted.”

Article 58.2 of the GDPR grants the Spanish Data Protection Agency a series of corrective powers for the purpose of rectifying any infringement of the GDPR, including “ordering the controller or processor to address the requests for the exercise of the rights of the data subject under this Regulation.”

III

Rights of individuals regarding personal data protection

The rights of individuals regarding personal data protection are regulated in articles 15 to 22 of the GDPR and 13 to 18 of the LOPDGDD. The rights of access, rectification, erasure, objection, the right to restriction of processing, and the right to data portability are contemplated.

The formal aspects related to the exercise of these rights are established in articles 12 of the GDPR and 12 of the LOPDGDD.

Additionally, consideration is given to what is expressed in Recitals 59 and following of the GDPR.

In accordance with the provisions of these regulations, the data controller must establish formulas and mechanisms to facilitate the exercise of rights by the data subject, which shall be free of charge (without prejudice to the provisions of articles 12.5 and 15.3 of the GDPR), and is obliged to respond to requests made no later than one month, unless they can demonstrate that they are unable to identify the data subject, and to express their reasons in case they do not intend to address such request. The burden of proof of compliance with the duty to respond to the request for the exercise of rights made by the affected party falls on the controller.

C/ Jorge Juan, 6

www.aepd.es

28001 – Madrid

sedeagpd.gob.es

4/8

The communication addressed to the interested party regarding their request must be expressed in a concise, transparent, intelligible, and easily accessible manner, using clear and simple language.

IV

Right of Access

In accordance with the provisions of Article 15 of the GDPR and Article 13 of the LOPDGDD, "the data subject has the right to obtain from the data controller confirmation as to whether or not personal data concerning them is being processed and, if so, the right of access to the personal data."

Regarding the right of access to personal data, according to the provisions of Article 13 of the LOPDGDD, when the exercise of the right refers to a large amount of data, the controller may request the data subject to specify the "data or processing activities to which the request refers." The right will be deemed granted if the controller provides remote access to the data, considering the request fulfilled (although the data subject may request the information referred to in the aspects provided in Article 15 of the GDPR).

The exercise of this right may be considered repetitive if it is exercised more than once within a period of six months, unless there is a legitimate reason for doing so. On the other hand, the request will be considered excessive when the data subject chooses a means other than the one offered that incurs a disproportionate cost, which must be borne by the data subject.

Like the other rights of the data subject, the right of access is a personal right. It allows the citizen to obtain information about the processing of their data, the possibility of obtaining a copy of the personal data concerning them that is being processed, as well as information, in particular, about the purposes of the processing, the categories of personal data concerned, the recipients or categories of recipients to whom the data may be communicated, the expected retention period or criteria for retention, the possibility of exercising other rights, the right to lodge a complaint with the supervisory authority, the information available about the source of the data (if it has not been obtained directly from the data subject), the existence of automated decisions, including profiling, and information about transfers of personal data to a third country or to an international organization. The possibility of obtaining a copy of the personal data being processed shall not adversely affect the rights and freedoms of others.

The right of access concerning medical records is specifically regulated in Article 18 of Law 41/2002, of November 14, which is the basic regulatory law on Patient Autonomy and Rights and Obligations in the Field of Information and Clinical Documentation (hereinafter LAP), the literal text of which states: "1. The patient has the right of access, with the reservations indicated in section 3 of this article, to the documentation of the medical record and to obtain a copy of the data contained therein. Health centers shall regulate the procedure that guarantees the observance of these rights.

2. The patient's right of access to the medical record may also be exercised by duly accredited representation.

3. The patient's right of access to the documentation of the medical record may not be exercised to the detriment of the right of third parties to the confidentiality of the data contained therein collected in the therapeutic interest of the patient, nor to the detriment of the rights of the professionals involved in its preparation, who may oppose the right of access based on the confidentiality of their subjective notes.

4. Health centers and individual practitioners shall only provide access to the medical records of deceased patients to individuals linked to them, for family reasons or otherwise, unless the deceased expressly prohibited it and this is evidenced. In any case, access by a third party to the medical record motivated by a risk to their health shall be limited to the relevant data. Information affecting the privacy of the deceased or the subjective notes of professionals, or that harms third parties, shall not be provided."

In this regard, it is important to highlight Article 15 of the LAP, which outlines the minimum content of the medical record:

"1. The medical record shall include the information deemed essential for the truthful and updated knowledge of the patient's health status. Every patient or user has the right to have a record, in writing or in the most appropriate technical support, of the information obtained in all their care processes, carried out by the health service both in primary care and specialized care.

2. The primary purpose of the medical record shall be to facilitate healthcare, documenting all data that, in the medical opinion, allow for the truthful and updated knowledge of the health status.

The minimum content of the medical record shall be as follows:

- a) The documentation related to the clinical-statistical sheet.
- b) The admission authorization.
- c) The emergency report.
- d) The anamnesis and physical examination.
- e) The evolution.
- f) The medical orders.
- g) The consultation sheet.
- h) The reports of complementary examinations.
- i) The informed consent.
- j) The anesthesia report.
- k) The operating room report or delivery record.
- l) The pathological anatomy report.
- m) The evolution and planning of nursing care.
- n) The therapeutic application of nursing."

C/ Jorge Juan, 6

www.aepd.es

28001 – Madrid

sedeagpd.gob.es

6/8

- n) The chart of constants.
- o) The discharge clinical report.

Paragraphs b), c), i), j), k), l), n) and o) will only be required in the completion of the clinical history when it concerns hospitalization processes or as otherwise provided.

3. The completion of the clinical history, in aspects related to direct patient care, will be the responsibility of the professionals involved in it.

4. The clinical history will be maintained with criteria of unity and integration, at each healthcare institution at a minimum, to facilitate the best and most timely knowledge by the healthcare professionals of the data of a particular patient in each care process.

Regarding the preservation of the clinical history, Article 17 of the LAP, in its points 1 and 5, provides that:

"1. Healthcare centers have the obligation to preserve clinical documentation under conditions that guarantee its proper maintenance and security, although not necessarily in the original format, for the proper care of the patient for the time appropriate to each case and, at a minimum, five years counted from the date of discharge of each care process (...)

5. Healthcare professionals who carry out their activity individually are responsible for the management and custody of the care documentation they generate."

V

Conclusion

During the processing of this file, the entity being claimed has responded to this Agency, highlighting the situation of bankruptcy in which it finds itself and the impossibility of attending to the requests made by the claiming party, simply due to this situation.

Consequently, it does not demonstrate having attended to the requests made by the claiming party, nor having informed them of the reasons for its inaction and the possibility of filing a complaint with a supervisory authority and exercising legal actions, sending them in any case the required response to their request. The claimed party is reminded that being in a state of bankruptcy does not exempt it from fulfilling its obligations regarding data protection, among which is the proper preservation and custody of clinical histories.

Thus, it cannot be accepted that the response that corresponds to be given can be expressed on the occasion of a mere administrative procedure, such as the formulation of allegations due to the present procedure, initiated precisely for not properly attending to the request in question.

C/ Jorge Juan, 6

The aforementioned rules do not allow for the request to be overlooked as if it had not been raised, leaving it without the response that those responsible must issue, even in the event that there are no data in the files or even in those cases where it does not meet the established requirements, in which case the recipient of such a request is also obliged to require the correction of the observed deficiencies or, if applicable, to deny the request with justification indicating the reasons why the right in question cannot be considered.

Therefore, the request made obliges the responsible party to provide an express response in all cases, using any means that justifies the receipt of the response.

Since a copy of the necessary communication that must be directed to the claiming party informing them about the decision made regarding the request to exercise rights is not attached, it is appropriate to uphold the claim that originated this procedure.

In view of the cited provisions and others of general application, the Presidency of the Spanish Agency for Data Protection RESOLVES:

FIRST: TO UPHOLD the claim made by A.A.A. considering that what is provided in Article 15 of the GDPR has been infringed and to urge LA GAVIA ASESORES, S.L.U. with NIF B85559003, to send to the claiming party, within ten working days following the notification of this resolution, a certification addressing the requested right or denying it with justification indicating the reasons why it is not appropriate to attend to the request, in accordance with what is established in the body of this resolution. The actions taken as a consequence of this Resolution must be communicated to this Agency within the same period. Non-compliance with this resolution could result in the commission of an infringement of art. 83.6 of the GDPR, classified as very serious for the purposes of prescription in Article 72.1.m) of the LOPDGDD, which will be sanctioned in accordance with art. 58.2 of the GDPR. SECOND: NOTIFY this resolution to A.A.A. and to LA GAVIA ASESORES, S.L.U.

In accordance with the provisions of Article 50 of the LOPDGDD, this Resolution will be made public once it has been notified to the interested parties.
