

File No.: EXP202304376

## RESOLUTION OF RIGHTS PROCEDURE

Once the procedural actions provided for in Title VIII of Organic Law 3/2018, of December 5, on the Protection of Personal Data and Guarantee of Digital Rights (hereinafter LOPDGDD) have been carried out, the following FACTS have been established:

FIRST: The claimant exercised the right of access to their medical history against the respondent, and their request, as stated by the claimant, did not receive the legally established response.

The claimant provides various documentation related to the complaint filed with this Agency and regarding the exercise of the right exercised.

SECOND: Once the procedure established in Article 65.4 of the LOPDGDD was fulfilled, the complaint was admitted for processing, and the respondent entity was granted a hearing period, to present any allegations it deemed appropriate within ten working days.

The respondent entity, during the formalized procedures, has demonstrated to this Agency that it has addressed the exercised right and sent the claimant the appropriate response to their request.

## LEGAL GROUNDS

I

### Competence

In accordance with the powers granted to each supervisory authority by Article 58.2 of Regulation (EU) 2016/679 (General Data Protection Regulation, hereinafter GDPR), and as established in Articles 47, 48.1, and 64.1 of Organic Law 3/2018, of December 5, on the Protection of Personal Data and Guarantee of Digital Rights (hereinafter LOPDGDD), the Director of the Spanish Data Protection Agency is competent to initiate and resolve this procedure.

Furthermore, Article 63.2 of the LOPDGDD states: "The procedures processed by the Spanish Data Protection Agency shall be governed by the provisions of Regulation (EU) 2016/679, this organic law, the regulatory provisions issued for its development, and, as long as they do not contradict them, subsidiarily by the general rules on administrative procedures."

II

### Preliminary Issues

In accordance with the provisions of Article 55 of the GDPR, the Spanish Data Protection Agency is competent to perform the functions assigned to it in Article 57, including the enforcement of the Regulation and promoting awareness among data controllers and processors regarding their obligations, as well as addressing complaints filed by data subjects and investigating, as appropriate, the reasons for them.

Correspondingly, Article 31 of the GDPR establishes the obligation of data controllers and processors to cooperate with the supervisory authority that requests it in the performance of its functions. In cases where they have appointed a data protection officer, Article 39 of the GDPR assigns this officer the function of cooperating with the said authority.

In accordance with this regulation, following the procedure established in Article 65.4 of the LOPDGDD, prior to the admission of the complaint regarding the exercise of the rights regulated in Articles 15 to 22 of the GDPR, which gives rise to this procedure, the complaint was forwarded to the respondent for analysis, to respond to this Agency within one month and to demonstrate that it had provided the claimant with the appropriate response.

The result of this forwarding did not allow for the understanding that the claimant's requests were satisfied. Consequently, on June 13, 2023, for the purposes provided for in Articles 64.1 and 65 of the

LOPDGDD, the complaint was admitted for processing. This admission for processing determines the opening of the present procedure for lack of attention to a request for the exercise of the rights established in Articles 15 to 22 of the GDPR, regulated in Article 64.1 of the LOPDGDD, according to which:

“When the procedure refers exclusively to the lack of attention to a request for the exercise of the rights established in Articles 15 to 22 of Regulation (EU) 2016/679 of the European Parliament and of the Council, of April 27, 2016, it shall be initiated by an admission agreement, which shall be adopted in accordance with the provisions of Article 65 of this organic law.

In this case, the deadline for resolving the procedure shall be six months from the date on which the claimant was notified of the admission agreement. After that period, the interested party may consider their complaint accepted.”

Article 58.2 of the GDPR grants the Spanish Data Protection Agency a series of corrective powers to correct any infringement of the GDPR, including “ordering the controller or processor to address the requests for the exercise of the rights of the data subject under this Regulation.”

III

### Rights of Individuals Regarding Personal Data Protection

The rights of individuals regarding personal data protection are regulated in Articles 15 to 22 of the GDPR and Articles 13 to 18 of the LOPDGDD. The rights include access, rectification, erasure, objection, the right to restriction of processing, and the right to data portability.

The formal aspects related to the exercise of these rights are established in Articles 12 of the GDPR and 12 of the LOPDGDD.

Additionally, consideration is given to what is expressed in Recitals 59 and following of the GDPR.

In accordance with the provisions of these regulations, the data controller must establish formulas and mechanisms to facilitate the exercise of rights by the data subject, which shall be free of charge (without prejudice to the provisions of Articles 12.5 and 15.3 of the GDPR), and is obliged to respond to requests made no later than one month, unless it can demonstrate that it is unable to identify the data subject, and to state its reasons in case it does not intend to comply with such request. The burden of proof regarding compliance with the obligation to respond to the request for the exercise of rights made by the affected individual lies with the data controller.

The communication addressed to the data subject regarding their request must be expressed in a concise, transparent, intelligible, and easily accessible manner, using clear and simple language.

IV

### Right of Access

In accordance with the provisions of Article 15 of the GDPR and Article 13 of the LOPDGDD, “the data subject has the right to obtain from the data controller confirmation as to whether or not personal data concerning them is being processed and, if so, the right of access to the personal data.”

Like the other rights of the data subject, the right of access is a personal right. It allows the citizen to obtain information about the processing of their data, the possibility of obtaining a copy of the personal data concerning them that is being processed, as well as information, in particular, about the purposes of the processing, the categories of personal data concerned, the recipients or categories of recipients to whom the personal data have been or will be disclosed, the expected retention period or criteria for retention, the possibility of exercising other rights, the right to lodge a complaint with the supervisory authority, the information available about the source of the data (if not obtained directly from the data subject), the existence of automated decision-making, including profiling, and information about transfers of personal data to a third country or to an international organization.

The possibility of obtaining a copy of the personal data being processed shall not adversely affect the rights and freedoms of others.

C/ Jorge Juan, 6

The right of access in relation to the medical history is specifically regulated in Article 18 of Law 41/2002, of November 14, Basic Law Regulating Patient Autonomy and Rights and Obligations in Relation to Information and Clinical Documentation (hereinafter LAP), the literal text of which states:

“1. The patient has the right of access, with the reservations indicated in section 3 of this article, to the documentation of the medical history and to obtain a copy of the data contained therein. Health centers will regulate the procedure that guarantees the observance of these rights.

2. The patient's right of access to the medical history can also be exercised by duly accredited representation.

3. The patient's right of access to the documentation of the medical history cannot be exercised to the detriment of the right of third parties to the confidentiality of the data contained therein collected in the therapeutic interest of the patient, nor to the detriment of the rights of the professionals involved in its preparation, who may oppose the right of access with the reservation of their subjective notes.

4. Health centers and individual practitioners will only facilitate access to the medical history of deceased patients to persons linked to them, for family or factual reasons, unless the deceased expressly prohibited it and this is accredited. In any case, access by a third party to the medical history motivated by a risk to their health will be limited to the pertinent data. Information affecting the privacy of the deceased or the subjective notes of the professionals, or that harms third parties, will not be provided.”

In this regard, it is important to highlight Article 15 of the LPA, which outlines the minimum content of the medical history:

“1. The medical history will include the information deemed essential for the truthful and updated knowledge of the patient's health status. Every patient or user has the right to have a record, in writing or in the most appropriate technical support, of the information obtained in all their care processes, carried out by the health service both in primary care and specialized care.

2. The main purpose of the medical history will be to facilitate healthcare, keeping a record of all those data that, under medical criteria, allow for the truthful and updated knowledge of the health status. The minimum content of the medical history will be as follows:

- a) Documentation related to the clinical-statistical sheet.
- b) Admission authorization.
- c) Emergency report.
- d) Anamnesis and physical examination.
- e) Evolution.
- f) Medical orders.
- g) Consultation sheet.
- h) Reports of complementary examinations.
- i) Informed consent.
- j) Anesthesia report.
- k) Operating room or delivery record report.
- l) Pathological anatomy report.
- m) Nursing care evolution and planning.
- n) Therapeutic nursing application.
- ñ) Vital signs chart.
- o) Clinical discharge report.

Paragraphs b), c), i), j), k), l), ñ), and o) will only be required in the completion of the medical history when it concerns hospitalization processes or as provided.

3. The completion of the medical history, in aspects related to direct patient care, will be the responsibility of the professionals involved in it.

4. The medical history will be maintained with criteria of unity and integration, in each healthcare institution at a minimum, to facilitate the best and most timely knowledge by the professionals of the

data of a particular patient in each care process.”

Regarding the preservation of the medical history, Article 17 of the LPA, in its points 1 and 5, states that:

“1. Health centers have the obligation to preserve clinical documentation under conditions that guarantee its proper maintenance and security, although not necessarily in the original support, for the proper assistance to the patient for the time appropriate to each case and, at a minimum, five years from the date of discharge from each care process...”

5. Healthcare professionals who carry out their activity individually are responsible for the management and custody of the care documentation they generate.”

V

#### Conclusion

In the case analyzed here, the claiming party exercised their right of access to the medical history.

After the period established in the aforementioned regulations elapsed, their request did not receive the legally required response.

The aforementioned regulations do not allow the request to be overlooked as if it had not been made, leaving it without the response that those responsible must issue, even in the event that there are no data of the interested party in the entity's files or even in those cases where the requirements provided are not met, in which case the recipient of such request is also obliged to require the rectification of the observed deficiencies or, if applicable, to deny the request with justification indicating the reasons why the right in question cannot be considered.

Therefore, the request made obliges the responsible party to provide an express response, in any case, using any means that justifies the receipt of the response.

6/6

In this case, however, it is noted that during the processing of the claim that gives rise to this procedure, formulated precisely due to the lack of an adequate response to the request for the exercise of rights, the responding party has provided documentation proving the communication sent to the interested party regarding the right or informing about the decision made regarding the request. This response, therefore, occurs after the established deadline has passed.

In this regard, it should be specified that the response that corresponds to be made cannot be expressed merely as an administrative procedure. Consequently, considering that the purpose of this procedure is to ensure that the guarantees and rights of the affected parties are duly restored, combining the information in the file with the regulations referred to in the preceding sections, it is appropriate to uphold the present claim on formal grounds due to the response being issued late, without requiring additional actions by the data controller in order to issue a new certification regarding the exercise of the right.

Having seen the cited provisions and others of general application, the Director of the Spanish Agency for Data Protection RESOLVES:

FIRST: TO UPHOLD on formal grounds the claim made by A.A.A., with NIF \*\*\*NIF.1, against the entity NAVALMORALES DESARROLLO, S.L. However, the issuance of a new certification by said entity is not warranted, as the response was issued late, without requiring additional actions by the responsible party.

SECOND: TO NOTIFY this resolution to A.A.A. and to NAVALMORALES DESARROLLO, S.L.

In accordance with the provisions of Article 50 of the LOPDGDD, this Resolution will be made public once it has been notified to the interested parties.

Against this resolution, which concludes the administrative route (Article 48.6 of the LOPDGDD), and in accordance with the provisions of Article 123 of Law 39/2015, of October 1, on the Common Administrative Procedure of Public Administrations, a voluntary appeal for reconsideration may be filed before the Director of the Spanish Agency for Data Protection, within one month from the day following the notification of this resolution, or a direct contentious-administrative appeal before the

Contentious-Administrative Chamber of the National Court, in accordance with the provisions of Article 25 and Section 5 of the Fourth Additional Provision of Law 29/1998, of July 13, regulating Contentious-Administrative Jurisdiction, within two months from the day following the notification of this act, as provided in Article 46.1 of the aforementioned legal text.
