

RESOLUTION OF RIGHTS PROCEDURE

Having reviewed the complaint registered on August 28, 2024, with this Agency and having carried out the procedural actions provided for in Title VIII of Organic Law 3/2018, of December 5, on the Protection of Personal Data and Guarantee of Digital Rights (hereinafter LOPDGDD), the following FACTS have been established:

FIRST: A.A.A. (hereinafter, the complainant) exercised the right of access to their medical history against LA GAVIA ASESORES, S.L.U. (hereinafter, the respondent) without their request receiving the legally established response. The complainant states that they requested the right of access to their personal data from the respondent on 22/07/2024, without receiving a response.

SECOND: In accordance with Article 65.4 of the LOPDGDD, the complaint was forwarded to the respondent for analysis and to inform this Agency within one month of the actions taken to comply with the requirements set forth in data protection regulations. On November 18, 2024, the respondent submitted a written statement referencing several files instructed by this Agency, and in relation to the present procedure, indicates that,

“Upon requesting the information from the Insolvent Party, they communicated to us that prior to the declaration of Bankruptcy, the company had external services that fulfilled the obligations referred to in the complaint. Due to the insolvency that the respondent was undergoing, this service was discontinued. As of the current date, given the bankruptcy situation of the aforementioned companies, it is not possible to re-establish this service.”

THIRD: The result of the transfer procedure indicated in the previous Fact did not allow for the understanding that the complainant's claims were satisfied. Consequently, on November 28, 2024, for the purposes provided for in Article 64.1 of the LOPDGDD, the Director of the Spanish Agency for Data Protection agreed to admit the complaint for processing. The aforementioned agreement granted the respondent a hearing period, so that within ten working days they could present any arguments they deemed appropriate, with no record of any response submitted.

LEGAL GROUNDS

I

Competence

In accordance with the powers granted to each supervisory authority by Article 58.2 of Regulation (EU) 2016/679 (General Data Protection Regulation, hereinafter GDPR), and as established in Articles 47, 48.1, and 64.1 of Organic Law 3/2018, of December 5, on the Protection of Personal Data and Guarantee of Digital Rights (hereinafter, LOPDGDD), the Presidency of the Spanish Agency for Data Protection is competent to resolve this procedure. Furthermore, Article 63.2 of the LOPDGDD states: “The procedures processed by the Spanish Agency for Data Protection shall be governed by the provisions of Regulation (EU) 2016/679, this organic law, the regulatory provisions issued for its development, and, in so far as they do not contradict them, by the general rules on administrative procedures in a subsidiary manner.”

II

Preliminary Issues

In accordance with the provisions of Article 55 of the GDPR, the Spanish Agency for Data Protection is competent to perform the functions assigned to it in Article 57, including the enforcement of the Regulation and promoting awareness among controllers and processors regarding their obligations, as well as handling complaints submitted by a data subject and investigating, as appropriate, the reasons for such complaints. Correspondingly, Article 31 of the GDPR establishes the obligation of controllers

and processors to cooperate with the supervisory authority that requests it in the performance of its functions. In cases where they have designated a data protection officer, Article 39 of the GDPR assigns this officer the function of cooperating with that authority.

In accordance with this regulation, following the procedure provided for in Article 65.4 of the LOPDGDD, prior to the admission of the complaint regarding the exercise of the rights regulated in Articles 15 to 22 of the GDPR, which gives rise to this procedure, it was forwarded to the respondent for analysis, to respond to this Agency within one month, and to prove that they had provided the complainant with the appropriate response. The result of this transfer did not allow for the understanding that the complainant's claims were satisfied. Consequently, on November 28, 2024, for the purposes provided for in Articles 64.1 and 65 of the LOPDGDD, the complaint was admitted for processing. This admission for processing determines the opening of the present procedure for failure to respond to a request for the exercise of the rights established in Articles 15 to 22 of the GDPR, regulated in Article 64.1 of the LOPDGDD, according to which:

C/ Jorge Juan, 6
www.aepd.es
28001 – Madrid
sedeagpd.gob.es
3/7

"When the procedure exclusively refers to the lack of attention to a request for the exercise of the rights established in Articles 15 to 22 of Regulation (EU) 2016/679 of the European Parliament and of the Council, of April 27, 2016, it shall be initiated by an admission agreement, which shall be adopted in accordance with the provisions of Article 65 of this organic law.

In this case, the deadline for resolving the procedure shall be six months from the date on which the admission agreement was notified to the claimant. After this period, the interested party may consider their claim accepted."

Article 58.2 of the GDPR grants the Spanish Data Protection Agency a series of corrective powers for the purpose of rectifying any infringement of the GDPR, including "ordering the data controller or processor to address the requests for the exercise of the rights of the data subject under this Regulation."

III

Rights of Individuals Regarding Personal Data Protection

The rights of individuals regarding personal data protection are regulated in Articles 15 to 22 of the GDPR and Articles 13 to 18 of the LOPDGDD. The rights of access, rectification, erasure, objection, the right to restriction of processing, and the right to data portability are contemplated.

The formal aspects related to the exercise of these rights are established in Articles 12 of the GDPR and 12 of the LOPDGDD.

Additionally, consideration is given to what is expressed in Recitals 59 and following of the GDPR.

In accordance with the provisions of these regulations, the data controller must establish formulas and mechanisms to facilitate the exercise of rights by the data subject, which shall be free of charge (without prejudice to the provisions of Articles 12.5 and 15.3 of the GDPR), and is obliged to respond to requests made no later than one month, unless it can demonstrate that it is unable to identify the data subject, and to express its reasons in case it does not intend to address such request. The burden of proof for compliance with the duty to respond to the request for the exercise of rights made by the affected party falls on the data controller.

The communication addressed to the data subject regarding their request must be expressed in a concise, transparent, intelligible, and easily accessible manner, using clear and simple language.

IV

Right of Access

In accordance with the provisions of Article 15 of the GDPR and Article 13 of the LOPDGDD, "the data subject has the right to obtain from the data controller confirmation as to whether or not personal data concerning them is being processed and, if so, the right of access to the personal data."

C/ Jorge Juan, 6
www.aepd.es

Regarding the right of access to personal data, in accordance with the provisions of Article 13 of the LOPDGDD, when the exercise of the right refers to a large amount of data, the data controller may request the affected party to specify the "data or processing activities to which the request refers." The right will be considered granted if the data controller provides remote access to the data, thus fulfilling the request (although the data subject may request the information referred to in the provisions of Article 15 of the GDPR).

The exercise of this right may be considered repetitive if it is exercised more than once within a period of six months, unless there is a legitimate reason for doing so. On the other hand, the request will be considered excessive when the affected party chooses a means other than the one offered that entails a disproportionate cost, which must be borne by the affected party.

Like the other rights of the data subject, the right of access is a personal right. It allows the citizen to obtain information about the processing of their data, the possibility of obtaining a copy of the personal data concerning them and being processed, as well as information, in particular, about the purposes of the processing, the categories of personal data concerned, the recipients or categories of recipients to whom the data may be communicated, the expected retention period or criteria for retention, the possibility of exercising other rights, the right to lodge a complaint with the supervisory authority, the information available about the source of the data (if not obtained directly from the data subject), the existence of automated decisions, including profiling, and information about transfers of personal data to a third country or to an international organization. The possibility of obtaining a copy of the personal data being processed will not negatively affect the rights and freedoms of others.

The right of access concerning medical records is specifically regulated in Article 18 of Law 41/2002, of November 14, which is the basic law regulating Patient Autonomy and Rights and Obligations in the Field of Information and Clinical Documentation (hereinafter LAP), the literal text of which states:

"1. The patient has the right of access, with the reservations indicated in section 3 of this article, to the documentation of the medical record and to obtain a copy of the data contained therein. Health centers will regulate the procedure that guarantees the observance of these rights.

2. The patient's right of access to the medical record may also be exercised by duly accredited representation.

3. The patient's right of access to the documentation of the medical record cannot be exercised to the detriment of the right of third parties to the confidentiality of the data contained therein collected in the therapeutic interest of the patient, nor to the detriment of the right of the professionals involved in its preparation, who may oppose the right of access based on the confidentiality of their subjective notes.

C/ Jorge Juan, 6

www.aepd.es

28001 – Madrid
sedeagpd.gob.es

5/7

4. Health centers and individually practicing professionals will only provide access to the medical records of deceased patients to individuals linked to them for family reasons or, in fact, unless the deceased expressly prohibited it and this is accredited. In any case, access by a third party to the medical record motivated by a risk to their health will be limited to the relevant data. Information affecting the privacy of the deceased or the subjective notes of the professionals will not be provided, nor information that harms third parties."

In this regard, it is important to highlight Article 15 of the LAP, which outlines the minimum content of the medical record:

"1. The medical record will include the information deemed essential for the truthful and updated knowledge of the patient's health status. Every patient or user has the right to have a record, in writing or in the most appropriate technical support, of the information obtained in all their care processes, carried out by the health service both in the primary care and specialized care settings.

2. The main purpose of the medical record will be to facilitate healthcare, keeping a record of all data that, under medical criteria, allow for the truthful and updated knowledge of the health status.

The minimum content of the medical record will be as follows:

a) Documentation related to the clinical-statistical sheet.

b) Admission authorization.

c) Emergency report.

d) Anamnesis and physical examination.

e) Evolution.

f) Medical orders.

g) Consultation sheet.

h) Reports of complementary examinations.

i) Informed consent.

j) Anesthesia report.

k) Operating room report or delivery record.

l) Pathological anatomy report.

m) Nursing care evolution and planning.

n) Therapeutic nursing application.

ñ) Constants chart.

o) Clinical discharge report.

Paragraphs b), c), i), j), k), l), ñ), and o) will only be required in the completion of the medical record when it concerns hospitalization processes or as otherwise provided.

3. The completion of the medical record, in aspects related to direct patient care, will be the responsibility of the professionals involved in it.

4. The medical record will be maintained with criteria of unity and integration, in each healthcare institution at a minimum, to facilitate the best and most timely...

C/ Jorge Juan, 6

www.aepd.es

28001 – Madrid

sedeagpd.gob.es

6/7

knowledge by the professionals of the data of a specific patient in each healthcare process".

Regarding the preservation of the medical record, Article 17 of the LAP, in its points 1 and 5, provides that:

"1. Healthcare centers are obliged to preserve clinical documentation under conditions that guarantee its proper maintenance and security, although not necessarily in the original format, for the proper assistance to the patient for the appropriate time in each case and, at a minimum, five years from the date of discharge from each healthcare process (...)

5. Healthcare professionals who carry out their activity individually are responsible for the management and custody of the healthcare documentation they generate".

V

Conclusion

During the processing of this procedure, the entity being claimed has responded to this Agency, highlighting the situation of bankruptcy in which it finds itself and the impossibility of addressing the request made by the claiming party, solely due to this situation.

Consequently, it does not demonstrate having addressed the request made by the claiming party, nor having informed them of the reasons for its inaction and the possibility of filing a complaint with a supervisory authority and exercising judicial actions, referring them in any case to the mandatory response to their

request. The claimed party is reminded that being in a state of bankruptcy does not exempt it from fulfilling its obligations regarding data protection, among which is the proper preservation and custody of medical records.

Thus, it cannot be accepted that the response that corresponds to be given can be expressed merely as an administrative procedure, such as the submission of allegations regarding this procedure, initiated precisely for failing to properly address the request in question.

The aforementioned rules do not allow the request to be overlooked as if it had not been made, leaving it without the response that those responsible must necessarily issue, even in the event that there are no data in the files or even in those cases where the requirements are not met, in which case the recipient of the request is also obliged to require the correction of the observed deficiencies or, if applicable, deny the request with justification indicating the reasons why the right in question cannot be considered.

Therefore, the request made obliges the responsible party to provide an express response in all cases, using any means that justifies the receipt of the response.

7/7

Since a copy of the necessary communication that must be directed to the claiming party informing them of the decision made regarding the request for exercise of rights is not attached, it is appropriate to uphold the claim that originated this procedure.

In view of the cited provisions and other generally applicable ones, the Presidency of the Spanish Agency for Data Protection RESOLVES:

FIRST: TO UPHOLD the claim made by A.A.A. considering that the provisions of Article 15 of the GDPR have been infringed and to urge LA GAVIA ASESORES, S.L.U. with NIF B85559003, to send to the claiming party, within ten working days following the notification of this resolution, a certification addressing the requested right or denying it with justification indicating the reasons why the request cannot be attended to, in accordance with what is established in the body of this resolution. The actions taken as a consequence of this Resolution must be communicated to this Agency within the same period. The failure to comply with this resolution could result in the commission of an infringement of art. 83.6 of the GDPR, classified as very serious for the purposes of prescription in Article 72.1.m) of the LOPDGDD, which will be sanctioned in accordance with art. 58.2 of the GDPR.

SECOND: NOTIFY this resolution to A.A.A. and to LA GAVIA ASESORES, S.L.U.

In accordance with the provisions of Article 50 of the LOPDGDD, this Resolution will be made public once it has been notified to the interested parties.

Against this resolution, which concludes the administrative procedure in accordance with art. 48.6 of the LOPDGDD, and in accordance with the provisions of Article 123 of the LPACAP, the interested parties may file, optionally, a motion for reconsideration before the Presidency of the Spanish Agency for Data Protection within one month from the day following the notification of this resolution or directly file a contentious-administrative appeal before the Contentious-Administrative Chamber of the National Court, in accordance with the provisions of Article 25 and in section 5 of the fourth additional provision of Law 29/1998, of July 13, regulating

Contentious-Administrative Jurisdiction, within two months from the day following the notification of this act, as provided in Article 46.1 of the aforementioned Law.
