

File No.: EXP202208325

RESOLUTION OF SANCTIONING PROCEDURE

From the procedure instructed by the Spanish Agency for Data Protection and based on the following

BACKGROUND

FIRST: A.A.A. (hereinafter, the complainant) filed a complaint with the Spanish Agency for Data Protection on 21/07/2022. The complaint is directed against B.B.B. with NIF ***NIF.1 (hereinafter, the respondent), for the installation of a video surveillance system located at ***ADDRESS.1, with indications of a possible violation of the provisions of Article 5.1.c) of the GDPR.

The reasons supporting the complaint are as follows:

The complainant states that they are a neighbor of the respondent and that the respondent has installed four video surveillance cameras in their home which, due to their location and orientation, are capable of capturing images of the complainant's home, without having previously authorized such circumstance.

Images of the camera locations are provided.

The documents submitted are:

- Photographic report

SECOND: In accordance with Article 65.4 of Organic Law 3/2018, of December 5, on Personal Data Protection and Guarantee of Digital Rights (hereinafter LOPDGDD), the complaint was forwarded to the respondent for analysis and to inform this Agency within one month of the actions taken to comply with the requirements set forth in data protection regulations.

The forwarding, which was carried out in accordance with the rules established in Law 39/2015, of October 1, on the Common Administrative Procedure of Public Administrations (hereinafter, LPACAP), was recorded on 04/08/2022 as noted in the acknowledgment of receipt in the file.

No response has been received to this forwarding letter.

THIRD: On October 21, 2022, in accordance with Article 65 of the LOPDGDD, the complaint filed by the complainant was admitted for processing.

FOURTH: On February 27, 2023, the Director of the Spanish Agency for Data Protection decided to initiate sanctioning proceedings against the respondent for the alleged infringement of Article 5.1.c) of the GDPR, classified under Article 83.5 of the GDPR.

FIFTH: The aforementioned initiation agreement was notified in accordance with the rules established in Law 39/2015, of October 1, on the Common Administrative Procedure of Public Administrations (hereinafter, LPACAP), and after the period granted for the submission of allegations had elapsed, it was confirmed that no allegations had been received from the respondent.

Article 64.2.f) of the LPACAP - a provision of which the respondent was informed in the initiation agreement - establishes that if no allegations are made within the stipulated period regarding the content of the initiation agreement, when it contains a precise statement regarding the responsibility attributed, it may be considered a proposal for resolution. In this case, the initiation agreement of the sanctioning file determined the facts that specified the accusation, the infringement of the GDPR attributed to the respondent, and the sanction that could be imposed. Therefore, considering that the respondent has not made allegations against the initiation agreement of the file and in accordance with the provisions of Article 64.2.f) of the LPACAP, the aforementioned initiation agreement is considered in this case as a proposal for resolution.

In light of all that has transpired, the Spanish Agency for Data Protection considers the following facts to be proven,

PROVEN FACTS

FIRST: It is established, according to documentation provided by the complainant, that the respondent has installed four video surveillance cameras in their home which, due to their location and orientation, are capable of capturing images of the complainant's home.

LEGAL GROUNDS

I

In accordance with the powers granted to each supervisory authority by Article 58.2 of Regulation (EU) 2016/679 (General Data Protection Regulation, hereinafter GDPR), and as established in Articles 47, 48.1, 64.2, and 68.1 of Organic Law 3/2018, of December 5, on Personal Data Protection and Guarantee of Digital Rights (hereinafter, LOPDGDD), the Director of the Spanish Agency for Data Protection is competent to initiate and resolve this procedure.

Furthermore, Article 63.2 of the LOPDGDD states: "The procedures processed by the Spanish Agency for Data Protection shall be governed by the provisions of Regulation (EU) 2016/679, by this organic law, by the regulatory provisions issued for its development, and, in so far as they do not contradict them, by the general rules on administrative procedures."

II

The physical image of a person, in accordance with Article 4.1 of the GDPR, is a personal data and its protection is therefore subject to this Regulation. Article 4.2 of the GDPR defines the concept of "processing" of personal data.

“processing”: any operation or set of operations performed on personal data or sets of personal data, whether by automated means or not, such as collection, recording, organization, structuring, storage, adaptation or alteration, retrieval, consultation, use, communication by transmission, dissemination or any other form of enabling access, alignment or combination, restriction, erasure or destruction;”

Images generated by a system of cameras or video cameras are personal data, and therefore their processing is subject to data protection regulations.

It is therefore pertinent to analyze whether the processing of personal data (images of natural persons) carried out through the reported video surveillance system is in accordance with the provisions of the GDPR.

III

Article 5.1 c) of the GDPR states the following: Personal data shall be:

“adequate, relevant and limited to what is necessary in relation to the purposes for which they are processed (‘data minimization’).”

Regarding processing for video surveillance purposes, Article 22 of the LOPDGDD establishes that natural or legal persons, public or private, may carry out the processing of images through camera or video camera systems for the purpose of preserving the safety of persons and property, as well as their facilities.

This means that in a specific processing, only the relevant personal data that is necessary to fulfill the purpose for which they are processed may be processed. The processing must be appropriate and proportional to the purpose it aims to achieve. Relevance in the processing of data must occur both at the time of data collection and in the subsequent processing of the same.

In accordance with the above, the processing of excessive data must be restricted or the data must be deleted.

The application of the data minimization principle in the context of video surveillance implies that images of public roads cannot be captured, since the processing of images in public places, unless there is government authorization, can only be carried out by the Security Forces and Bodies.

C/ Jorge Juan, 6

www.aepd.es

On some occasions, for the protection of private spaces, where cameras have been installed on facades or indoors, it may be necessary to record a portion of the public road to ensure the purpose of security.

That is to say, cameras and video cameras installed for security purposes may not capture images of the public road unless it is essential for that purpose, or it is impossible to avoid it due to their location. In such extraordinary cases, the cameras may only capture the minimum portion necessary to preserve the safety of persons and property, as well as their facilities.

Under no circumstances will the use of surveillance practices beyond the environment subject to the installation be permitted, and in particular, they may not affect surrounding public spaces, adjacent buildings, and vehicles other than those accessing the monitored space.

Installed cameras may not capture images of third-party private spaces and/or public spaces without a duly justified cause, nor may they affect the privacy of passersby freely transiting the area.

Therefore, the placement of cameras directed towards the private property of neighbors with the intention of intimidating them or affecting their private sphere without a justified cause is not permitted. Images may also not be captured or recorded in spaces owned by third parties without the consent of their owners, or, where applicable, of the persons present in those spaces.

Furthermore, it is disproportionate to capture images in private spaces, such as changing rooms, lockers, or rest areas for workers.

IV

In accordance with the above, the processing of images through a video surveillance system, to be compliant with current regulations, must meet the following requirements:

1.- Natural or legal persons, public or private, may establish a video surveillance system for the purpose of preserving the safety of persons and property, as well as their facilities.

It must be assessed whether the intended purpose can be achieved by other means that are less intrusive to the rights and freedoms of citizens.

"Personal data should only be processed if the purpose of the processing cannot reasonably be achieved by other means." Recital 39 of the GDPR.

2.- The images obtained may not be used for a subsequent purpose incompatible with the one that motivated the installation of the video surveillance system.

C/ Jorge Juan, 6

www.aepd.es

28001 – Madrid

sedeagpd.gob.es

3.- The processing of images through the installation of camera or video camera systems must be lawful and comply with the principles of proportionality and data minimization, as previously indicated.

4.- When the system is connected to an alarm center, it may only be installed by a private security company that meets the requirements set forth in Article 5 of Law 5/2014 on Private Security, of April 4. It should be noted that individuals are responsible for ensuring that the installed systems comply with current legislation, demonstrating that they meet all the requirements established by the applicable regulations.

In any case, the cameras must be oriented towards private spaces, avoiding intimidating neighboring residents with such devices, as well as monitoring transit areas without justified cause.

It is worth noting that even in the case of a "dummy" camera, it must preferably be oriented towards private space, as it is considered that such devices can affect the privacy of third parties, who may feel intimidated by the belief that they are subject to permanent recording.

The Spanish Data Protection Agency provides access through its website [<https://www.aepd.es>] to:

- the legislation on personal data protection, including the GDPR and the LOPDGDD (section "Reports and Resolutions" / "Regulations"),

- the Guide on the use of video cameras for security and other purposes,
- the Guide for compliance with the duty to inform (both available in the "Guides and Tools" section).

It is also of interest, in cases of low-risk data processing, the free tool Facilita (in the "Guides and Tools" section), which, through specific questions, allows assessing the situation of the data controller regarding the personal data processing they carry out, and if applicable, generating various documents, informative and contractual clauses, as well as an annex with minimum recommended security measures.

V

From the instruction carried out in the file, it is considered that the respondent has a poorly oriented video surveillance system that could affect the rights of third parties and/or public space, processing personal data, which would violate the provisions of Article 5.1.c) of the GDPR, and could constitute an infringement classified under Article 83.5 of the GDPR, which states the following:

"Violations of the following provisions shall be sanctioned, in accordance with paragraph 2, with administrative fines of up to 20,000,000 EUR or, in the case of a company, an amount equivalent to 4% of the total annual global turnover of the previous financial year, opting for the higher amount: a) the basic principles for processing, including the conditions for consent under Articles 5, 6, 7, and 9; (...)"

For the purposes of the statute of limitations for infringements, the infringement indicated in the previous paragraph is considered very serious in accordance with Article 72.1 of the LOPDGDD, which establishes that:

"Based on what is established in Article 83.5 of Regulation (EU) 2016/679, the following are considered very serious and shall be subject to a three-year statute of limitations for infringements that constitute a substantial violation of the articles mentioned therein and, in particular, the following:

a) The processing of personal data in violation of the principles and guarantees established in Article 5 of Regulation (EU) 2016/679."

VI

In accordance with the provisions of Article 58.2 d) of the GDPR, under which each supervisory authority may "order the controller or processor to ensure that the processing operations comply with the provisions of this Regulation, where appropriate, in a specific manner and within a specified time frame...", it is indicated that the respondent must proceed to remove the camera or video camera system from its current location or to reorient it, so that the viewing of the images evidences that it does not capture:

- common areas of the dwelling.
- the neighboring dwelling.
- the public road.

The imposition of this measure is compatible with the sanction consisting of an administrative fine, as provided in Article 83.2 of the GDPR.

It is warned that failure to comply with the requirements of this agency may be considered an administrative infringement in accordance with the provisions of the GDPR, classified as an infringement in Articles 83.5 and 83.6, which could lead to the initiation of further administrative sanctioning procedures.

Therefore, in accordance with the applicable legislation and having assessed the criteria for the graduation of sanctions whose existence has been established, the Director of the Spanish Data Protection Agency RESOLVES:

FIRST: TO IMPOSE on B.B.B., with NIF ***NIF.1, for an infringement of Article 5.1.c) of the GDPR, classified under Article 83.5 of the GDPR, a fine of 300 euros (THREE HUNDRED euros).

C/ Jorge Juan, 6

www.aepd.es

28001 – Madrid

sedeagpd.gob.es

7/8

SECOND: To order B.B.B. with NIF ***NIF.1, pursuant to Article 58.2.d) of the GDPR, for an infringement of Article 5.1.c) of the GDPR, classified under Article 83.5.b) of the aforementioned

Regulation, that within 30 days from the date this resolution becomes enforceable, proceed to remove the camera or video camera system from the current location or to reorient it, in such a way that the viewing of the images evidences that the following is not captured:

- common areas of the dwelling.
- the adjoining dwelling.
- the public road.

THIRD: NOTIFY this resolution to B.B.B.

FOURTH: Warn the sanctioned party that they must comply with the imposed sanction once this resolution becomes enforceable, in accordance with the provisions of Article 98.1.b) of Law 39/2015, of October 1, on the Common Administrative Procedure of Public Administrations (hereinafter LPACAP), within the voluntary payment period established in Article 68 of the General Collection Regulation, approved by Royal Decree 939/2005, of July 29, in relation to Article 62 of Law 58/2003, of December 17, by making the payment, indicating the NIF of the sanctioned party and the procedure number that appears in the heading of this document, to the restricted account No.

IBAN: ES00-0000-0000-0000-0000 (BIC/SWIFT Code: CAIXESBBXXX), opened in the name of the Spanish Agency for Data Protection at the banking entity CAIXABANK, S.A. Otherwise, collection will proceed in the executive period.

Upon receipt of the notification and once enforceable, if the date of enforceability falls between the 1st and the 15th of each month, inclusive, the deadline for voluntary payment will be until the 20th of the following month or the next business day thereafter, and if it falls between the 16th and the last day of each month, inclusive, the payment deadline will be until the 5th of the second following month or the next business day thereafter.

In accordance with the provisions of Article 50 of the LOPDGDD, this Resolution will be made public once it has been notified to the interested parties.

Against this resolution, which concludes the administrative route in accordance with Article 48.6 of the LOPDGDD, and in accordance with the provisions of Article 123 of the LPACAP, the interested parties may optionally file a motion for reconsideration before the Director of the Spanish Agency for Data Protection within one month from the day following the notification of this resolution or directly file a contentious-administrative appeal before the Contentious-Administrative Chamber of the National Court, in accordance with the provisions of Article 25 and Section 5 of the fourth additional provision of Law 29/1998, of July 13, regulating the Contentious-Administrative Jurisdiction, within two months from the day following the notification of this act, as provided in Article 46.1 of the aforementioned Law. Finally, it is noted that in accordance with the provisions of Article 90.3 a) of the LPACAP, the firm resolution in the administrative route may be provisionally suspended if the interested party expresses their intention to file a contentious-administrative appeal. If this is the case, the interested party must formally communicate this fact by means of a written document addressed to the Spanish Agency for Data Protection, submitting it through the Electronic Registry of the Agency

[<https://sedeagpd.gob.es/sede-electronica-web/>], or through any of the other registries provided for in Article 16.4 of the aforementioned Law 39/2015, of October 1. They must also provide the Agency with documentation that proves the effective filing of the contentious-administrative appeal. If the Agency is not aware of the filing of the contentious-administrative appeal within two months from the day following the notification of this resolution, it will consider the provisional suspension to be concluded.
