

Measures to Minimize

Internet Tracking

3. If the browser has anti-tracking protection, activate this feature and choose the highest level.

6. You can configure your device not to use the advertising identifier to create profiles or display personalized ads.

1. Consider the privacy options offered to you when choosing a browser and the apps you install on your devices.

2. Avoid installing unnecessary applications in your browser to minimize risks.

4. You can configure the browser to block third-party cookies, or at least block them when browsing in private mode.

5. Avoid logging into your browser with a user account or leaving the session open indefinitely.
